DeKalb County Continuum of Care

**Public Notice of Posting  
FY 2023 Continuum of Care (CoC) NOFO  
CoC Approved Consolidated Application and Priority Ranking**

The U.S. Department of Housing and Urban Development (HUD) Continuum of Care (CoC) program supports national efforts to prevent and end homelessness and provides critical funding to support local efforts to permanently house and support individuals and families experiencing homelessness in DeKalb County, Georgia. Each year HUD releases a Notice of Funding Opportunity (NOFO) which signifies the beginning of a national funding competition among approximately 450 CoCs across the country.

The DeKalb County Community Development Department, as the designated collaborative applicant for the DeKalb CoC, has responsibility for holding a local competition to determine which homeless assistance projects will be included in the consolidated CoC NOFO Application. The local competition, including the objective review, rating and ranking of all applications for new and renewal projects commenced on August 3, 2023, and concluded on September 13, 2023.

**A copy of the CoC Approved - Consolidated Application for FY2023 HUD CoC funding, along with all the Priority Listings for all New and Renewal projects will be posted and available for public review and comment on the DeKalb County website on or before September 26, 2023, at**
