IV. **Public Comments:**

- Jordan Fox; thanked Board for lowering max level on decibels. Second question; requested that Annual Report be sent to Brookhaven and Chamblee with instructions on how to make a noise complaint. - Elliot Aviation will leave The Maintenance Group
- Larry Foster; question about changes on the main runway. Will any projected changes effect displaced threshold part of runway (6600 lbs. engineer weight)? 2nd question: If so, this needs to be added to the Master Plan. Larry showed some documents. Mario Evans asked that Joseph Snyder, architect engineer with Jim Baker answer. Snyder answered: it is not the weight of the aircraft that determines the design of pavement, it is tires, how many ops at airport, where the tires line up with joints of concrete, etc. Evans further clarified: Displaced threshold is not used for landing purposes. Airport is not looking to extend runway, not looking to add larger aircraft. Mario said Joseph Snyder will come back next month and present on weight-bearing and capacity.
