

Public Notice of Proposed Award of Sole Source Procurement

Section A – Description of Proposed Sole Source Procurement

Description of Supplies/Services: Next Generation 9-1-1 Call Management Software Cloud native software as a service (SaaS) portable platform, Carbyne APEX with built in on -demand caller location accuracy that includes translation and transcription services. Carbyne can send/receive live videos and pictures to provide lifesaving and safety information to responding units. This System also includes Internet based wiring for management of non-emergency lines.

Demonstration of Contractor’s Unique Qualifications: Carbyne partnered with AT&T on next-generation 911 tools for a suite of emergency response tools. AT&T is the largest ESInet provider in the US. AT&T is the only carrier that can provided end-to-end emergency communication solutions, between ESInet and PSAPs to the Carbyne APEX and Universe cloud-native emergency call management and mapping solutions. The upgrade is seamless and easily deployed since the County is currently using AT&T framework.

Section B – To Be Completed by the Department of Purchasing and Contracting
