Department: Planning & Sustainability

SUBJECT:

COMMISSION DISTRICT(S): COMMISSION DISTRICT 02 SUPER DISTRICT 06

Application of Fariz Morani for a Special Land Use Permit (SLUP) to build and operate a restaurant with drive through in a C-2 (General Commercial) zoning district within a Town Center (TC) Activity Center, at 1726 Church Street.

PETITION NO: D4-2023-1146 SLUP-23-1246650

PROPOSED USE: Restaurant with drive-through.

LOCATION: 1726 Church Street, Decatur, Georgia 30033

PARCEL NO. : 18-062-03-001

INFO. CONTACT: John Reid, Sr. Planner

PHONE NUMBER: 404-371-2155

PURPOSE:

Application of Fariz Morani for a Special Land Use Permit (SLUP) to build and operate a restaurant with drive through in a C-2 (General Commercial) zoning district within a Town Center (TC) Activity Center.

RECOMMENDATION:

COMMUNITY COUNCIL: (Feb. 13, 2024) Approval with conditions. (Oct. 10, 2023) Denial.

PLANNING COMMISSION: (March 5, 2024) Full-Cycle Deferral. (Nov. 2, 2023) Denial.

PLANNING STAFF: Denial.

STAFF ANALYSIS: The request is to demolish the existing building on the property and construct a new restaurant with a drive through configuration (i.e., a drive-through coffee establishment). This request was deferred for two cycles from the November 16, 2023 Board of Commissioners Zoning Meeting to allow the applicant more time to meet with the surrounding community. District 2 Community Council recommended approval with the following conditions at its February 13, 2024 meeting: 1. A site plan be provided which is consistent with the marked-up aerial diagram; and 2. Sales are limited to coffee only. Since the District 2 Community Council meeting the applicant has provided a concept plan which shows that there is proposed access to both the connector street and from Church Street (see attached). The site is located within a Town Center (TC) activity center character area and the Medline LCI designated by the *DeKalb 2050 Unified Plan*. Although there are existing drive-through establishments along Scott Boulevard and Church Street, the addition of a new drive-through restaurant does not meet the intent and vision of the TC Character Area and Medline LCI calls for higher intensity residential and commercial uses which serve several surrounding communities, in order to reduce automobile travel, promote walkability, and increase transit usage (*2050 Unified Plan, page 33*). Additionally, the proposed drive-through restaurant is not located at the edge of the TC Character Area where auto-oriented uses may warrant consideration, instead the subject property is located in the center of the character area where pedestrian oriented, high-density mixed-use projects are desired. The subject property falls within a large subarea of the Medline LCI classified as “*Medline Core Area*” located on the southeast side of Scott Boulevard and extending to properties along both sides of DeKalb Industrial Way and North Decatur Road (see enclosed). The Medline Core subarea calls for high density residential (up to 60 dwelling units per acre) with building heights between 3 and 5 stories (Pg. 2). Since the subject property is small and oddly shaped, the subject property would likely have to be consolidated with some of the adjacent and surrounding properties and rezoned to a mixed-use

zoning district to allow for the development opportunities envisioned by the policies and strategies of either the TC Character Area or the Medline Core subarea of the Medline LCI. Alternatively, applicable variances (including but not limited to minimum building setbacks and parking spaces) could be sought by the property owner for the subject property under the current C-2 (heavy commercial) zoning district which allows a wide variety of commercial uses. Such variances would be considered on their merits by the Zoning Board of Appeals. The site is a nonconforming lot measuring 22,651 square feet and does not comply with the minimum lot area for C-2 zoning, which requires 30,000 square feet. Allowing a drive-through use to encourage more traffic on this small, non-conforming site may cause more traffic congestion in the area and be a burdensome use of transportation infrastructure. While the applicant indicates that there is compliance with all drive-through supplemental regulations per Section 4.2.23, this cannot be verified since the submitted plan is not drawn to scale or detailed enough (see enclosed “*Church Street Revised Site Plan*”). Furthermore, due to the small size of the property, it appears that the site may not be able to comply with all of the right-of-way dedication requirements, sidewalks, and landscape improvements required by the DeKalb County Transportation Department (see enclosed inter-departmental comments for required improvements). If the SLUP were approved several variances would have to be approved by the Zoning Board of Appeals prior to the issuance of any permits. No new information has been submitted to the Planning Department since the November 16th Board of Commissioners meeting. Upon review of Section 7.4.6.H (Compliance with polices of Comprehensive Plan), 7.4.6.A (Adequate site size to accommodate proposed use) and 7.4.6D (Sufficient traffic carrying capacity) of the *Zoning Ordinance*, it is the recommendation of the Planning and Sustainability Department that the Special Land Use Permit (SLUP) for a drive-through restaurant on the subject site be “Denied”.

PLANNING COMMISSION VOTE: (March 5, 2024) Full-Cycle Deferral 5-3-0 (Final motion). Sarah Zou moved, Edward Patton seconded for a full cycle deferral to the May 2024 zoning agenda to allow time for the applicant to make sidewalk, parking/biking improvements. Jana Johnson, Deanna Murphy, & Jon West opposed. (The 1st motion to deny failed, 3-5-0.) **(Nov. 2, 2023) Denial 8-0-0.** Deanna Murphy moved, Jan Costello seconded for denial, per Staff recommendation.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: (Feb. 13, 2024) Approval with conditions 6-3-0 that 1) The Applicant supply a future site plan with no major changes from the presented diagram; and, 2) Sales be limited to coffee only. **(Oct. 10, 2023) Denial.** Community Council District 2 voted for denial because the applicant failed to appear before the board to answer questions and hear from the community. Additionally, there were questions regarding vehicle egress and ingress and neighborhood notification.

Comprehensive Plan: Town Center (TC) Consistent Inconsistent

Proposed Building Sq. Ft.: approximately 600 square feet	Existing Building Sq. Footage: 924 sf
Proposed Lot Coverage: NA	Existing Lot Coverage: NA

STAFF RECOMMENDATION: DENIAL

The request is to demolish the existing building on the property and construct a new restaurant with a drive-through configuration (i.e., a drive-through coffee establishment).

This request was deferred for two cycles from the November 16, 2023 Board of Commissioners Zoning Meeting to allow the applicant more time to meet with the surrounding community.

District 2 Community Council recommended approval with the following conditions at its February 13, 2024 meeting: 1. A site plan be provided which is consistent with the marked-up aerial diagram; and 2. Sales are limited to coffee only. Since the District 2 Community Council meeting the applicant has provided a concept plan which shows that there is proposed access to both the connector street and from Church Street (see attached).

The site is located within a Town Center (TC) activity center character area and the Medline LCI designated by the *DeKalb 2050 Unified Plan*. Although there are existing drive-through establishments along Scott Boulevard and Church Street, the addition of a new drive-through restaurant does not meet the intent and vision of the TC Character Area and Medline LCI calls for higher intensity residential and commercial uses which serve several surrounding communities, in order to reduce automobile travel, promote walkability, and increase transit usage (*2050 Unified Plan, page 33*). Additionally, the proposed drive-through restaurant is not located at the edge of the TC Character Area where auto-oriented uses may warrant consideration, instead the subject property is located in the center of the character area where pedestrian oriented, high-density mixed-use projects are desired.

The subject property falls within a large subarea of the Medline LCI classified as “*Medline Core Area*” located on the southeast side of Scott Boulevard and extending to properties along both sides of DeKalb Industrial Way and North Decatur Road (see enclosed). The Medline Core subarea calls for high density residential (up to 60 dwelling units per acre) with building heights between 3 and 5 stories (Pg. 2). Since the subject property is small and oddly shaped, the subject property would likely have to be consolidated with some of the adjacent and surrounding properties and rezoned to a mixed-use zoning district to allow for the development opportunities envisioned by the policies and strategies of either the TC Character Area or the Medline Core subarea of the Medline LCI. Alternatively, applicable variances (including but not limited to minimum building setbacks and parking spaces) could be sought by the property owner for the subject property under the current C-2 (heavy commercial) zoning district which allows a wide variety of commercial uses. Such variances would be considered on their merits by the Zoning Board of Appeals.

The site is a nonconforming lot measuring 22,651 square feet and does not comply with the minimum lot area for C-2 zoning, which requires 30,000 square feet. Allowing a drive-through use to encourage more traffic on this small, non-conforming site may cause more traffic congestion in the area and be a burdensome use of transportation infrastructure. While the applicant indicates that there is compliance with all drive-through supplemental regulations per Section 4.2.23, this cannot be verified since the submitted plan is not drawn to scale or detailed enough (see enclosed “*Church Street Revised Site Plan*”). Furthermore, due to the small size of the property, it appears that the site may not be able to comply with all of the right-of-way dedication requirements, sidewalks, and landscape improvements required by the DeKalb County Transportation Department (see enclosed inter-departmental comments for required improvements). If the SLUP were approved several variances would have to be approved by the Zoning Board of Appeals prior to the issuance of any permits. No new information has been submitted to the Planning Department since the November 16th Board of Commissioners meeting.

Upon review of Section 7.4.6.H (Compliance with polices of Comprehensive Plan), 7.4.6.A (Adequate site size to accommodate proposed use) and 7.4.6D (Sufficient traffic carrying capacity) of the *Zoning Ordinance*, it is the

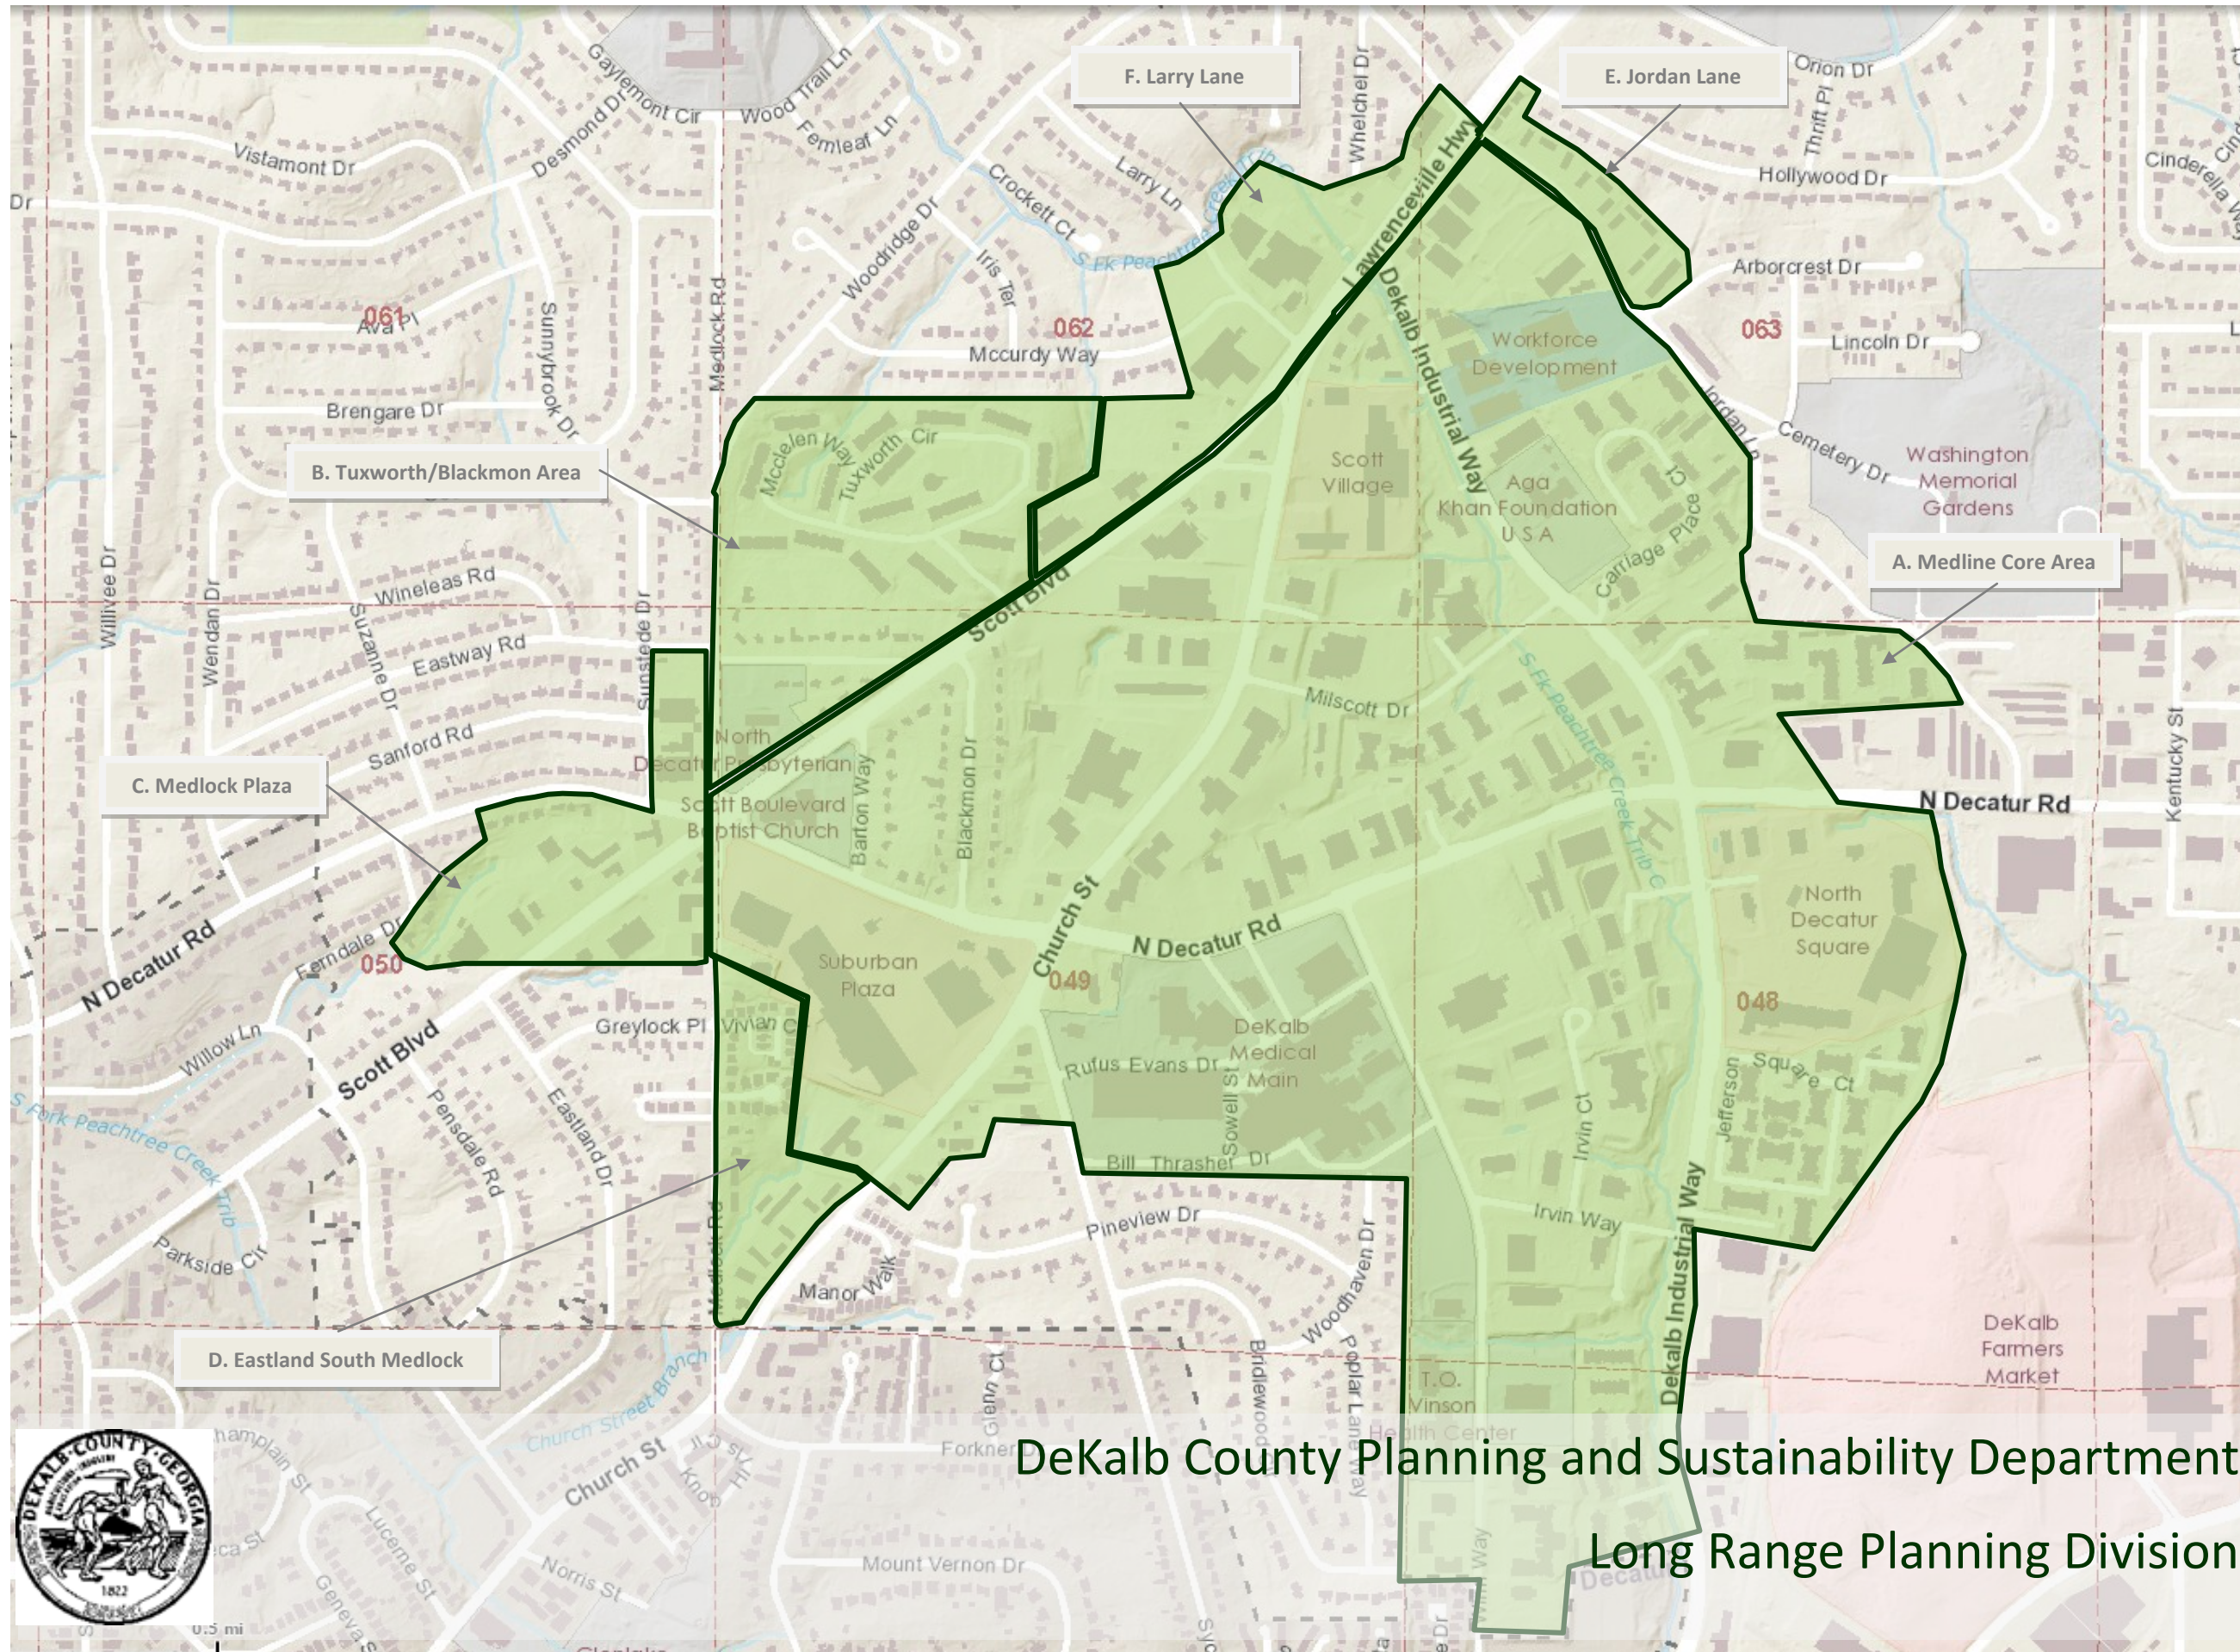

recommendation of the Planning and Sustainability Department that the Special Land Use Permit (SLUP) for a drive-through restaurant on the subject site be **DENIED**.

MEDLINE LCI PLAN

SUPPLEMENTAL LAND USE & ZONING RECOMMENDATIONS

Land Use Amendment Impacts

B. Tuxworth / Blackmon Area
 FLU: CRC (18du/ac); SUB (8du/ac)
Recommended Densities

- LCI Study - 10-20 du/ac
- Supplemental - 24 du/ac

Analysis: The proposed density exceeds what is allowed in the FLU. The SUB should remain residential.
Staff: LUA required (NC).

C. Medlock Plaza
 FLU: CRC (18du/ac); SUB (8du/ac)
Recommended Densities

- LCI Study - 20 du/ac
- Supplemental - 12 du/ac

Analysis: Comp Plan has no FLU for 12 du/ac. However, the proposed density does not exceed the FLU (CRC). The SUB being the CRC should remain, and density should not exceed 8 du/ac.
Staff: No LUA.

D. Eastland South Medlock
 FLU: CRC (18du/ac); SUB (8du/ac)
Recommended Densities

- LCI Study - 10-20
- Supplemental: 12 du/ac

Analysis: Comp Plan has no FLU for 12 du/ac, but it is consistent with CRC (18du/ac). The existing office uses located within the SUB are allowed.
Staff: No LUA.

E. Jordan Lane
 FLU: CRC (18du/ac)
Recommended Densities

- LCI Study - 10 du/ac
- Supplemental - 16 du/ac

Analysis: Proposed density is 16 du/ac. This is allowed in the CRC FLU, with is 18 du/ac.
Staff: No LUA.

F. Larry Lane
 FLU: CRC (18du/ac)
Recommended Densities

- LCI Study - 20 du/ac
- Supplemental - 24 du/ac

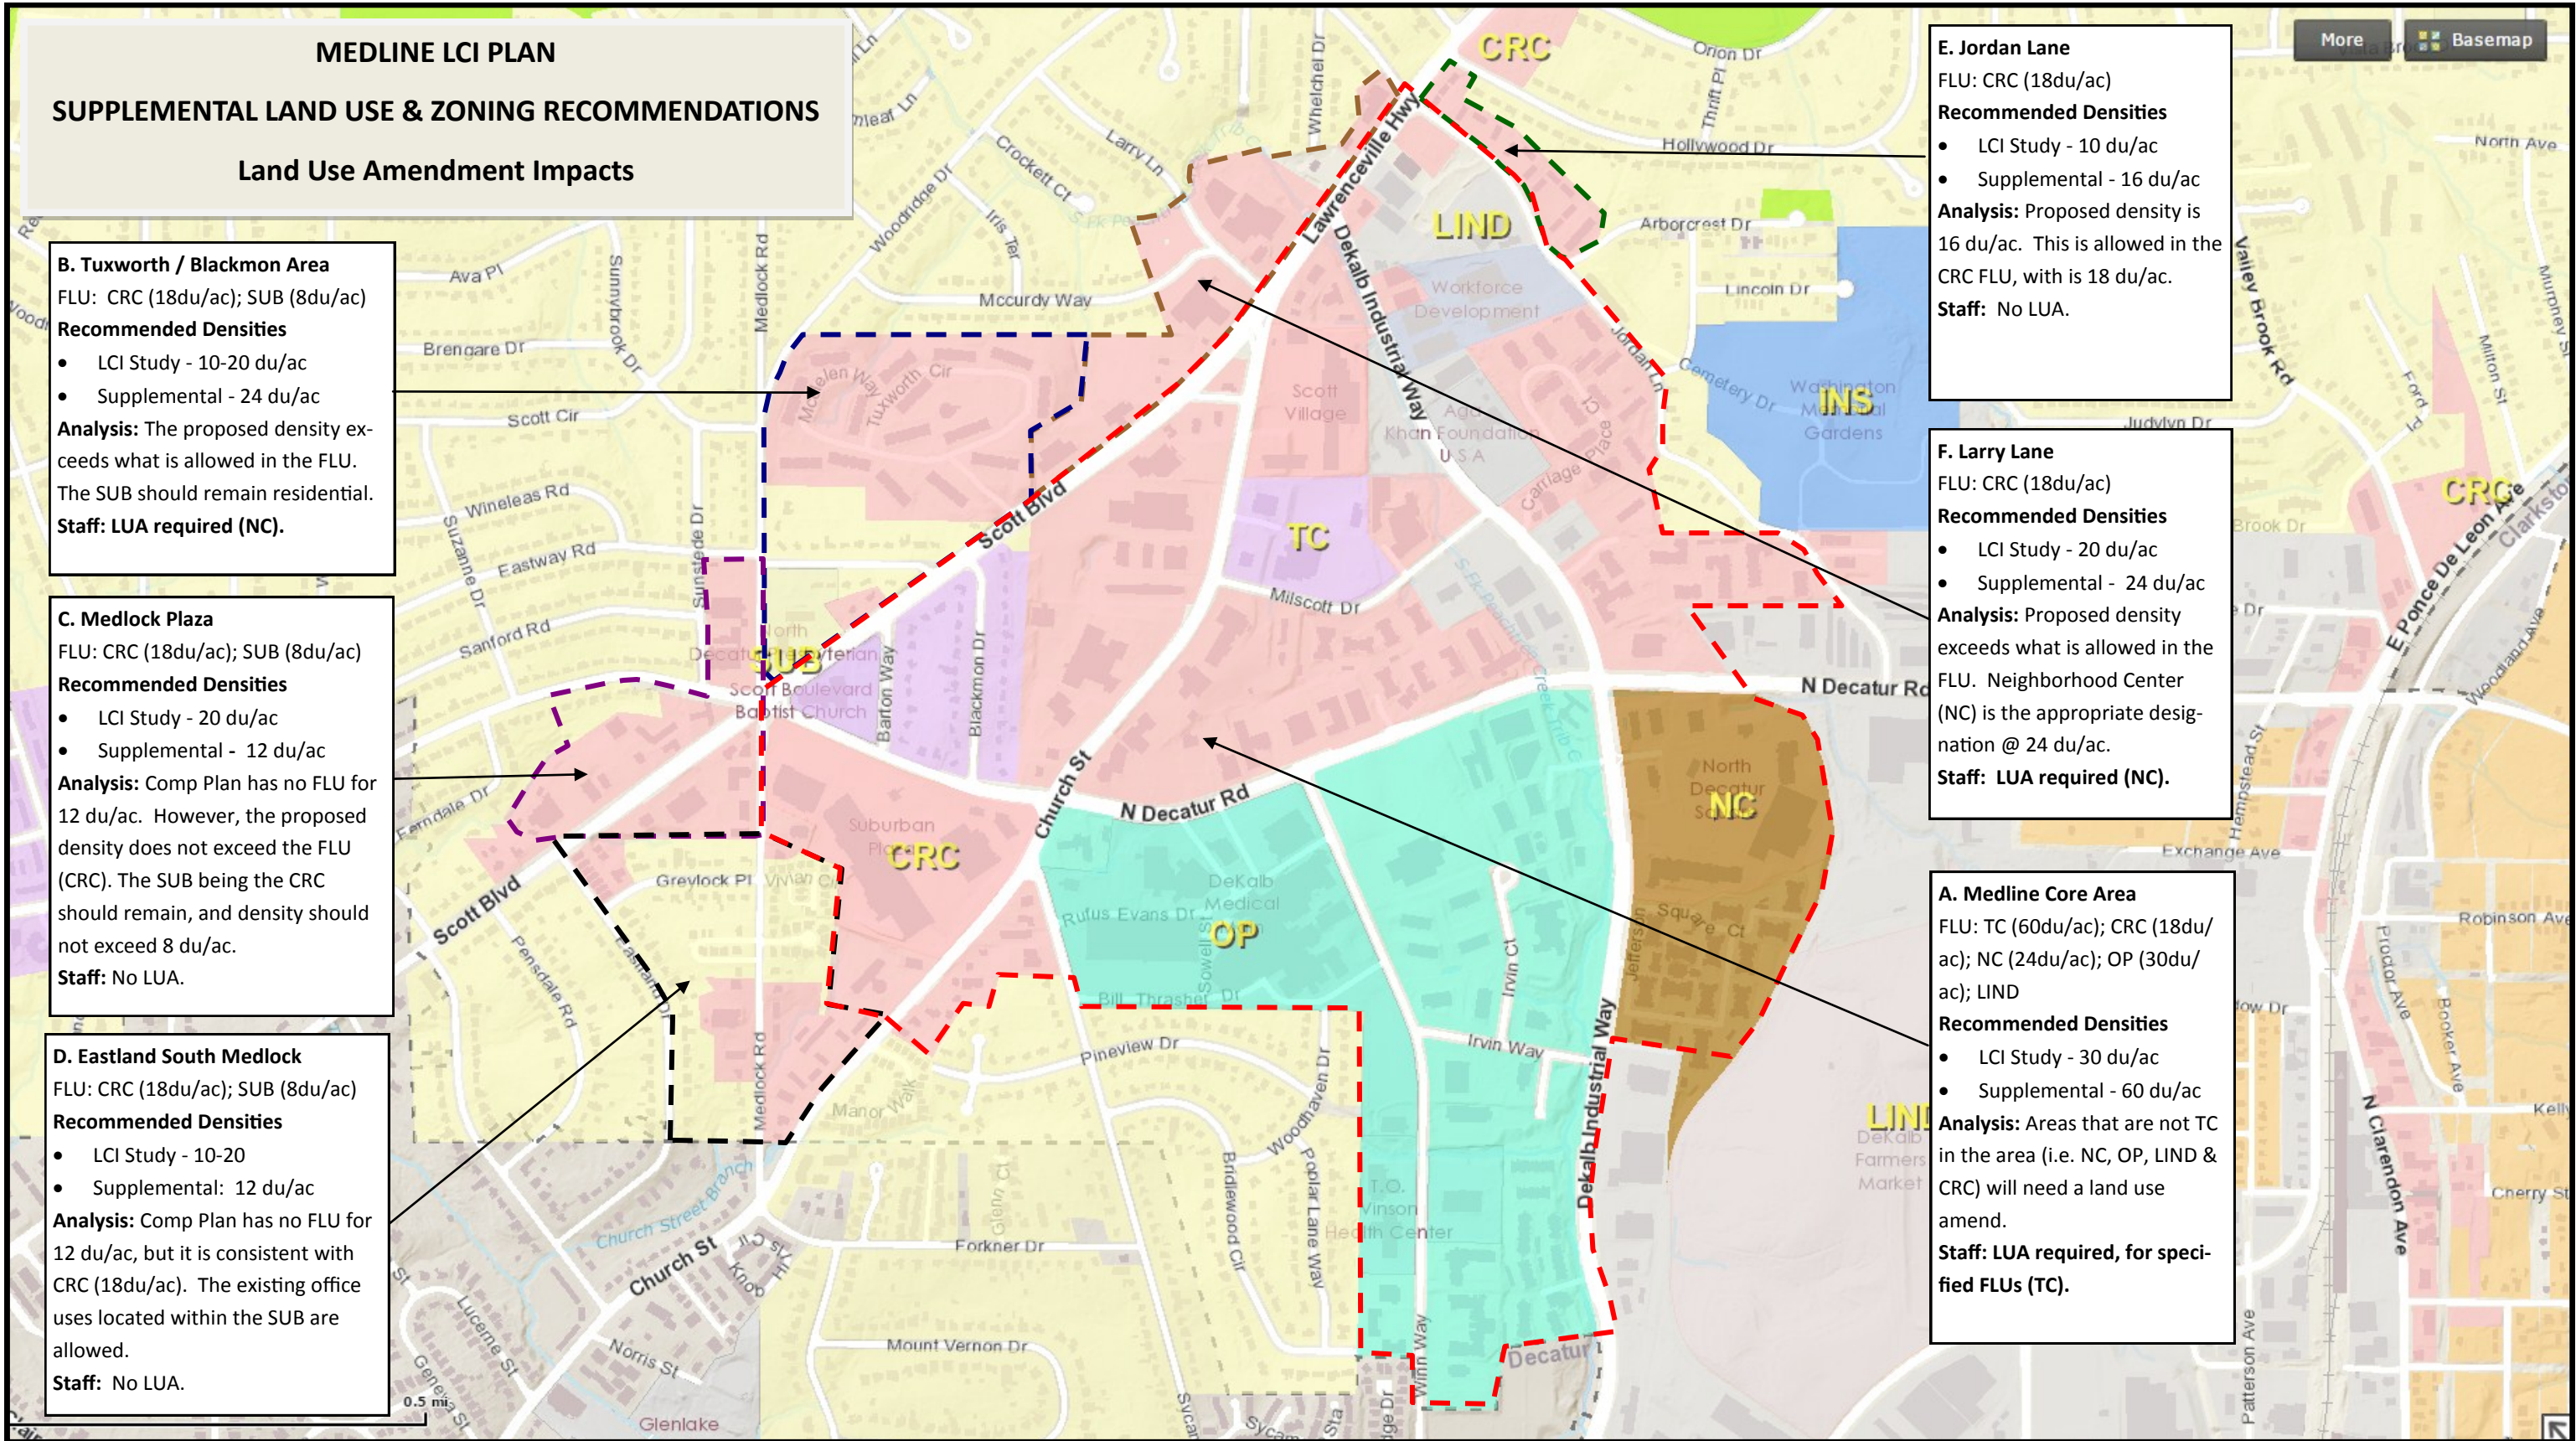

Analysis: Proposed density exceeds what is allowed in the FLU. Neighborhood Center (NC) is the appropriate designation @ 24 du/ac.
Staff: LUA required (NC).

A. Medline Core Area
 FLU: TC (60du/ac); CRC (18du/ac); NC (24du/ac); OP (30du/ac); LIND

Recommended Densities

- LCI Study - 30 du/ac
- Supplemental - 60 du/ac

Analysis: Areas that are not TC in the area (i.e. NC, OP, LIND & CRC) will need a land use amend.
Staff: LUA required, for specified FLUs (TC).

Proposed right of way width _____

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6⁷ Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS: Did not see any traffic engineering concerns at this time.

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to the sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

OCTOBER 2023 ZONING COMMENTS

- 1. N-1. 1484 and 1520 Columbia Drive.** Columbia Drive is classified as a minor arterial. Requires a 40-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. Requires a 10-foot shared path, 5-foot landscape strip between path and back of curb, and streetlights required. Please note that private roads must be constructed to public road standards. They should be 24 feet wide instead of 20 feet wide. I am concerned that people will park along the road and not in the designated parking spots due to distance from spots to lots 2-9. Add no Parking signs on both sides of the interior street from Columbia Drive to end of Lot 17. No parking allowed on Columbia Drive. Needs a spot for turnaround at the security gate if vehicles are not allowed to enter. They cannot back into Columbia Drive should entrance be denied.
- 2. N-2 4822 Covington Hwy.** Covington Hwy is SR 12. GDOT review and permits required. Covington Hwy is classified as a major arterial. ROW dedication of 50 feet from center line or such that all public infrastructure is within ROW, whichever greater. Requires a 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required. Required to upgrade traffic signal to provide pedestrian facilities. GDOT signal permit required.
- 3. N-3. 1726 Church St.** Scott Blvd is SR 8 and requires GDOT review and approval prior to permitting. Scott Blvd is classified as a major arterial. Requires: Requires a 50-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. A 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required. No access allowed directly to Scott Blvd. Church Street is classified at a minor arterial. Requires a 40-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. A 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required. One right in right out access only along Church Street- prefer no access. Connector street is classified as local. Requires a 27.5-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. Requires 5-foot landscape strip between back of curb and sidewalk, 6-foot sidewalk, streetlights required.
- 4. N-4 & N-5 8070 and 8080 Rockbridge Rd.** Rockbridge Road is SR 124. GDOT review and permitting required. Rockbridge Rd is classified as a major arterial. Requires: Requires a 50-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. A 10-foot shared use path, 5-foot landscape strip between back of curb and path, streetlights required. Design entrance as a typical right in/right out for driver clarity. South Rockbridge Road is a minor arterial. Requires a 40-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. A 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required.
- 5. N-6. 2179 Bouldercrest Rd.** Bouldercrest Rd is a classified as a major arterial. Requires a 50-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. Requires a 10-foot shared path, add curb and gutter, 5-foot landscape strip between back of curb and path, and streetlights. Verify that each driveway meets minimum intersection and stopping sight distance per AASHTO.
- 6. N-7. 1716 Pleasant Hill Trails and Various Pleasant Hill Road Major Mod** Pleasant Hill Trail is a local road and must be improved as part of this development's frontage. Requires a 27.5-foot ROW dedication from centerline or such that all public infrastructure is within ROW, whichever greater. From the centerline- the road must be improved to be 12 feet wide with curb and gutter, 5-foot landscape strip and a 5-foot sidewalk, streetlights required. Pleasant Hill Road is classified as a minor arterial. Requires a 40-foot ROW dedication

from centerline or such that all public infrastructure is within ROW, whichever greater. From the centerline- the road must be improved to be 12 feet wide with curb and gutter, 10-foot shared path, 5-foot landscape strip between path and back of curb, streetlights required. Both access points must meet minimum sight distance requirements per AASHTO for intersection and stopping sight distance. Pleasant Hill Road has a speed limit of 45 mph. A variance is needed for minimum number of access points per section 14-200 (5) of the land development code. For the Transportation Division to support the variance, a full intersection design with left turn lanes and right turn lanes will be required at Providence Point Dr and the new road. Consider adding traffic calming measures on interior streets to determine driveway placement. (Hard to retrofit townhome communities with traffic calming.) Assuming interior streets will be private based on plan provided. Private streets must be built to public road standards.

7. **N-8. & N-9. 2536 Snapfinger Rd.** I-20 Overlay District Tier 3. Overlay standards take precedent- where silent the zoning and then the land development standards are applied. Snapfinger Road is classified as a major arterial. ROW dedication of 50 feet from center line of Snapfinger Rd or such that all public infrastructure is within ROW, whichever greater. Follow the infrastructure requirements of the overlay district, but at a minimum: The public roads to the east and north require a right of way dedication of 27.5 feet from centerline, five-foot landscape strip from back of curb, 5-foot sidewalk and street lighting.
8. **N-10. 2569 & 73 Dusty Lane.** Dusty Lane is classified as a local road. Required to dedicate 27.5 feet of right of way from centerline or such that all public infrastructure is within right of way, whichever greater. Requires five-foot landscape strip from back of curb to sidewalk, five-foot sidewalk and pedestrian lighting.
9. **N-11 & N-12. 3823 N Druid SLUP.** Eliminate one curb cut on North Druid Hills Rd. North Druid Hills Rd is classified as a major arterial. ROW dedication of 50 feet from center line or such that all public infrastructure is within ROW, whichever greater. Requires a 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required. Provide necessary driveway easements/ROW for the Birch Road at North Druid Hills Rd Intersection project. Coordinate with PW- Transportation on easement/ROW.
10. **N-13. 4381 Covington Hwy.** Covington Hwy is SR 12. GDOT review and permits required. Covington Hwy is classified as a major arterial. ROW dedication of 50 feet from center line or such that all public infrastructure is within ROW, whichever greater. Requires a 10-foot shared path, 5-foot landscape strip between back of curb and path, streetlights required.
11. **N-14.** No Comment.

NOTE: PLEASE RETURN ALL COMMENTS VIA EMAIL TO EXPEDITE THE PROCESS TO JOHN REID jreid@dekalbcountyga.gov AND/OR LASONDRA HILL lahill@dekalbcountyga.gov

Recommend denial

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

DEVELOPMENT ANALYSIS:

- **Transportation/Access/Row**

No comment.

- **Storm Water Management**

The conceptual plan shall indicate:

- (1) the location of the proposed stormwater mgt facility to comply with sec.14-40 of the County codes
- (2) the discharge point from the proposed stormwater mgt facility.

Notes: (1) Stormwater mgt facility must be at least 20' from the property line; (2) the discharge point must be at least 25' from the property line; (3) the County codes require the pre-development conditions to be modeled as wooded

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area was not in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application.

Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer was not reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

- **Fire Safety**

**DEKALB COUNTY GOVERNMENT
PLANNING DEPARTMENT
DISTRIBUTION FORM**

**REZONE
COMMENTS FORM:
PUBLIC WORKS ROAD AND DRAINAGE**

Case No.: SLUP-23-1246650

Parcel I.D. #: 18-062-03-001

Address: 1726 Church Street, Decatur, GA 30033

Drainage Basin: South Fork Peachtree Creek

Upstream Drainage Area: N/A

Percent of Property in 100-Year Floodplain: 0%

Impact on property (flood, erosion, sedimentation) under existing zoning: The flood impact in zone X outside the floodplain and otherwise referred to as Special Flood Hazard Area is minimal. Erosion and sedimentation is not expected to be prevalent due to the property having been developed in its present state.

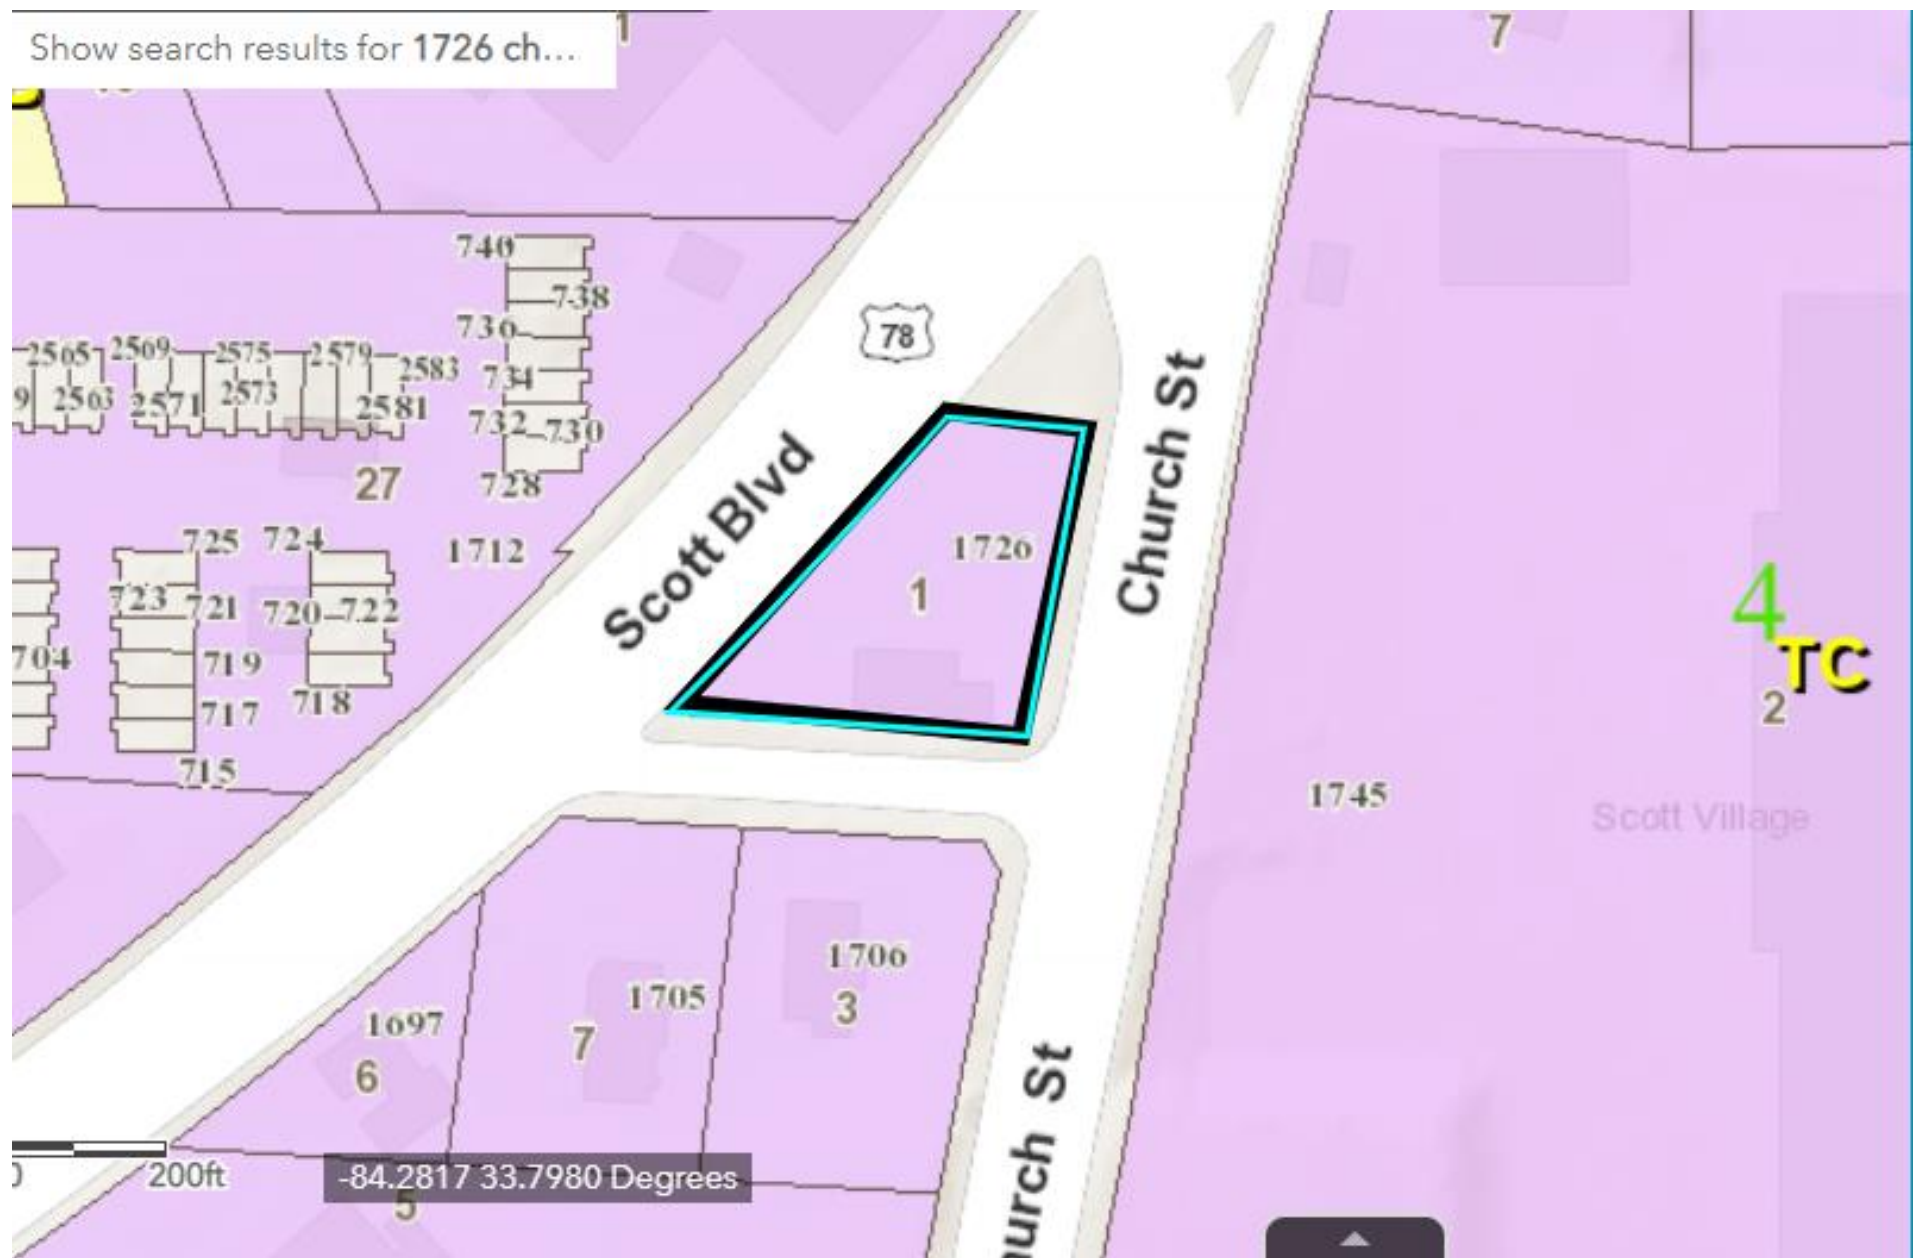

Required detention facility(s): No.

COMMENTS:

The SLUP application if approved will not affect the existing stormwater infrastructure as no increase is expected in runoff of the area due to the proposed use.

IMPACT ANALYSIS

Criteria: Sec 27-7.4.6 The following criteria shall be considered by the Department of Planning and Sustainability, the Planning Commission and the Board of Commissioners in evaluating and deciding any application for a special land use permit. No application for a special land use permit shall be granted by the Board of Commissioners unless satisfactory provisions and arrangements have been made concerning each of the following factors, all of which are applicable to each application, and unless the application is in compliance with all applicable regulations in Article 4.

- A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located.
- B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.
- C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use.
- D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.
- E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.
- F. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use.
- G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.
- H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.
- I. Whether there is adequate provision of refuse and service areas.
- J. Whether the length of time for which the special land use permit is granted should be limited in duration.
- K. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.
- L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.
- M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.
- N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.

DEPARTMENT OF PLANNING & SUSTAINABILITY

AUTHORIZATION

The property owner should complete this form or a similar signed and notarized form if the individual who will file the application with the County is not the property owner.

Date: 09/6/23

TO WHOM IT MAY CONCERN:

(I), (WE) Karim Lakhani
Name of owners(s) (If more than one owner, attach a separate sheet)

Being (owner) (owners) of the subject property described below or attached hereby delegate authority to:

Fariz Morani
Name of Agent or Representative

to file an application on (my), (our) behalf.

DEPARTMENT OF PLANNING & SUSTAINABILITY

FILING FEES

At the time of submittal, a filing fee shall accompany each Special Land Use Permit application as follows:

SPECIAL LAND USE PERMIT \$400.00

Applications for non-contiguous property (separated by a street) must be filed separately. A separate fee will be charged for each application. Applications deferred “full cycle” do not require additional fees. An application that is withdrawn and later re-filed will be treated as a new case and will require a new fee.

ADDITIONAL CRITERIA FOR SPECIFIED USES

No application for a special land use permit for the uses specified below shall be granted by the board of commissioners unless it is determined that, in addition to meeting the requirements contained within the zoning district in which such property is located and the criteria contained in section 7.4.6 and complying with applicable regulations in Article 4, satisfactory provisions and arrangements have been made concerning each of the following criteria:

- A. *Telecommunications towers and antennas.* In determining whether to authorize a special land use permit for a telecommunication tower or antenna, the board of commissioners shall comply with and apply the requirements of section 4.2.57.
- B. *Mine, mining operation, gravel pit, quarry, or sand pit.* In determining whether to authorize a special land use permit for a mine, mining operation, gravel pit, quarry, or sand pit, the board of commissioners shall also consider each of the following criteria:
 1. Whether the type and volume of traffic associated with such use will cause congestion in the streets and will create noise and vibration along streets used for residential purposes or adjacent to activity centers.
 2. Whether the applicant has provided a soil erosion control plan and a reuse or reclamation plan which meets the requirements of DeKalb County and of the Georgia Surface Mining Act, O.C.G.A. § 12-4-70, et seq., as amended, and the Rules of Department of Natural Resources, Chapter 391- 3-3, as amended.
 3. Whether or not the applicant meets the requirements of the county’s noise ordinance.
- C. *Child day care facility.* In determining whether to authorize a special land use permit for a child day care facility, the board of commissioners shall also consider each of the following criteria:

DEPARTMENT OF PLANNING & SUSTAINABILITY

1. Whether the proposed off-street parking areas and the proposed outdoor play areas can be adequately screened from adjoining properties so as not to adversely impact any adjoining land use.
 2. Whether there is an adequate and safe location for the dropping off and picking up of children at the child day care facility.
 3. Whether the character of the exterior of the proposed structure will be compatible with the residential character of the buildings in the zoning district in which the child day care facility is proposed to be located, if proposed for a residential zoned district.
- D. Biomedical waste disposal facilities, disposal facilities, landfills, county solid waste disposal facilities, county solid waste landfills, private industry solid waste disposal facilities, solid waste handling facilities, solid waste thermal treatment technology facilities, and disposal facilities for hazardous and/or toxic materials including radioactive materials.
1. In determining whether to authorize a special land use permit for a biomedical waste disposal facility, disposal facility, landfill, county solid waste disposal facility, county solid waste landfill, private industry solid waste disposal facility, solid waste handling facility, solid waste thermal treatment technology facility, or disposal facility for hazardous and/or toxic materials including radioactive materials, the board of commissioners shall also consider each of the following criteria:
 - a. Whether the proposed use does not pose any potential negative impact resulting from air pollution, degradation of soil and/or water quality, noise, odor, or other negative environmental effects.
 - b. Whether the proposed use will not have a significant deleterious effect on use of land and value of existing housing in adjacent and nearby neighborhoods.
 - c. Whether the proposed use will not create a negative traffic impact on any adjacent or nearby residential street(s) resulting from truck and other vehicular traffic associated with the facility.
 - d. Whether the proposed use does not represent an over-concentration of such uses in the area.
 2. An assessment shall be prepared by the DeKalb County sanitation division regarding item 1.d above.

LATE NIGHT ESTABLISHMENT OR NIGHTCLUB CHECK LIST

1. Is the requested SLUP for a new business or an existing business? (Please check only one) New Business _____ Existing Business _____. If the SLUP is for an existing business, please answer question Nos. 2 - 5.
2. Does this Business have a current Business License? Yes _____ No _____ If yes, provide a copy of current business license.
3. Has this business ever been operated without a Business License? Yes _____ No _____
If yes, how long did the business operate without a business license? _____
4. Has this business received a citation for any of the following:
 - a. Life safety violations such as pyrotechnics, overcrowding, inadequate ingress/egress operating beyond the permitted hours of operation.
 - b. Construction (major/minor renovation, alteration and addition) without a valid DeKalb County permit.
 - c. Business closure and renovation without surrendering license to State and County as required by State law.
 - d. Change of business name, ownership, or use without DeKalb County approval.
 - e. No valid Certificate of Occupancy issued by DeKalb County
 - f. Violation of operating hours of the Zoning ordinance or Alcohol Ordinance.
 - g. Lack of proof of residency under DeKalb County. Any person who holds a liquor license in DeKalb County is required under DeKalb County law to be a resident of DeKalb County.
5. If one or more of the citations mentioned in No. 4 have been issued, please provide copies of summons and citations and summary of court decision or resolution.

Submittal of a fraudulent application is a violation of DeKalb County and State law.

DEPARTMENT OF PLANNING & SUSTAINABILITY

DISCLOSURE OF CAMPAIGN CONTRIBUTION

In accordance with the Conflict of Interest in Zoning Act, OCGA Chapter 36-67A, the following questions must be answered.

Have you, the applicant, made \$250.00 or more in campaign contribution to a local government official within two years immediately preceding the filing of this application?

Yes _____ No X *

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

1. The name and official position of the local government official to whom the campaign contribution was made.
2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O. and to the Board of Commissioners of DeKalb County, 1300 Commerce Drive, Decatur, GA 30030.

Notice of Special Land Use Application

Community Meeting

August 7, 2023

Ash Nega
2180 Briarcliff Rd
Atlanta, GA

Dear Ash Nega,

I am planning to apply for a Dekalb County Special Land Use Permit (SLUP) to change the conditions for the property located at 1726 Church Street, Decatur, Georgia, 30030 to allow for a **Coffee Shop with Drive-Thru**. Find out more about the project, ask questions, and voice your opinion at the following community meeting:

Date: August 14, 2023

Time: 6:30pm

Location: [Link to Zoom Meeting](#)

Topic: SLUP - Community Meeting - 1726ChurchStreet

Time: Aug 14, 2023 06:30 PM Eastern Time (US and Canada)

Meeting ID: 894 1628 0372

Passcode: 2H8BNm

If you have any questions about the meeting, please call 404-662-3322 or e-mail [fariz@alfloans.com]. We look forward to seeing you there (virtually).

Sincerely,

O. Minter
Meeting Organizer

PRE-SUBMITTAL COMMUNITY MEETING

08/23/2023 @ 6:30PM

Speaker 1: Odessa (meeting organizer)

Speaker 2: Fariz Morani

Speaker 3: Kate Eastburn

Also in attendance: Jim Smith, Concerned Citizen

Transcript

00:00:26 Speaker 1

Well, Jim.

00:00:58 Speaker 1

This way maybe we'll wait about 5 minutes.

00:01:01 Speaker 2

Yeah. Yeah, we'll give time to see if somebody else will be joining. See Jim has joined.

00:02:58 Speaker 2

Hello, Kate. Welcome.

00:03:01 Speaker 3

Thank you.

00:03:08 Speaker 2

We're just giving 5 more minutes to see if somebody else will join and then we can get started.

00:05:28 Speaker 2

Guys, we're going to wait 10 more minutes giving a little bit more time to other participants who might be joining us and running late.

00:05:36 Speaker 2

And we'll I'll come back in 10 minutes to check to see if we can start and get started.

00:14:31 Speaker 2

00:16:21 Speaker 2

So to revive this property to bring some life to it, to bring some activity to.

00:16:26 Speaker 2

Like we were thinking of users that would be smaller but at the same time could bring something of value to the community with all the development and the tenants where Chick-fil-A is and the surrounding tenants. We thought having a small 600 square foot coffee user would be a great fit on the site.

00:16:46 Speaker 2

The shape is of course irregular, which makes it very difficult to develop anything upon it.

00:16:52 Speaker 2

The site is actually surrounded by islands and it's two major intersections, Scott Blvd. and Shore St. the traffic volume exist at the moment and with the way we are doing our site plan, it would not.

00:17:12 Speaker 2

Add any more traffic than what it is already existing and the reason we say that because there is a connector street right behind our.

00:17:21 Speaker 2

Which we will use that and limit the curb cuts to make sure that the traffic flow wells. So I'm going to kind of highlight it, as you can see, we have a right in right out at the connector St. we have a right in right out. We have literally 1235 curb cuts. So we plan on making sure.

00:17:42 Speaker 2

That we work with G dot. We work with the local county officials to make sure that we are being very considerate of traffic on Scott as well as on Church St. Uh. We think this is a great use because of the fact that people are going to hospital, people are.

00:17:58 Speaker 2

Work and on the way they can grab the coffee and kind of go. So we will definitely work extensively to make sure that we keep traffic as a big consideration and make sure that our plan doesn't affects that or increases the traffic. Then what it is already existing there. So we are proposing.

00:18:18 Speaker 2

Of course, to accommodate existing travelers right now who are passing the property and so forth. As you can see, this is a very preliminary concept. Plan. Again, this nothing has finalized. This is going to be a national credit tenant, we are just.

00:18:37 Speaker 2

Kind of getting feedback and at a very early stages trying to understand and as you can see that the uh, the building will be located in the center of the property and as you can see that we'll have parkings, we'll have, we'll we'll work on landscaping on the islands. We have a beautiful landscaping.

00:18:58 Speaker 2

In front of the property where we plan on making like a signature uh sign and and dressing that up. We also were going to put some bike racks on the property to allow walkers bikers to have access to the.

00:19:12 Speaker 2

So that's that's basically our vision so far.

00:19:15 Speaker 2

With the site plan.

00:19:18 Speaker 2

We will make sure that this property and this parcel at this point it's, you know, very under your device. We will try to bring the coffee shop. So we have you know mobility with all the apartments that's developed. We have all the residents.

00:19:31 Speaker 2

We have the the uh hospitals. We will make sure that we have pedestrians.

00:19:36 Speaker 2

Blockers bike rock racks, crosswalks, and make sure that the wheel the bike lane can be being painted on the connector St. and we can discuss that with G dot and the local officials to make sure that it will fit all in the the usage and the criterias. We will also enhance the sidewalks to serve a 10 foot.

00:19:57 Speaker 2

The path again, specifically along the connector side, we will of course be working with G dot to create the the green the pointed green, the pets drinking fountain. We'll create a safe zone on pointed green. We'll make sure that this business will be tobacco free zone. We'll make sure that the business offers also healthy options as juice bars and.

00:20:18 Speaker 2

Herbal teas and just have a healthy options for the community.

00:20:23 Speaker 2

Members around it.

00:20:25 Speaker 2

So I think it's a very uh, narrow uh site plan and and again we have been thinking for the last four years on how we can uplift this and make it better versus leaving it the way it is and continuing to have the same user and using it for the same purpose.

00:20:45 Speaker 2

Which is not bringing any brightness or any light to the property. So at this point I can open the floor for questions that any of you might have and anything I can.

00:20:57 Speaker 2

Speak about or clarify anything that you might have questions about.

00:21:16 Speaker 3

What is it currently? What is the current use of this property?

00:21:20 Speaker 2

The current use of the property is auto sales.

00:21:24 Speaker 1

MM.

00:21:25 Speaker 3

So it's a very difficult piece of.

00:21:29 Speaker 3

Land to figure out.

00:21:32 Speaker 2

Right, with the setbacks and the regulations, because the building has non conforming soon as you take this building down and the new guidelines and the new setbacks doesn't allow you to really redevelop this property at.

00:21:42 Speaker 2

All. So it makes it very, very challenging and you only have limitations on the users and the size of the building you can put on it.

00:21:42 Speaker 3

Right.

00:21:50 Speaker 2

So that's why no one has ever redeveloped it. But we have been thinking about how to uplift this and make it better than just to continue to run it in the form of shape it is. And we think this is going to kind of bring life to the property. But again I that's the shape is so irregular as you can.

00:22:09 Speaker 2

See in this.

00:22:10 Speaker 2

Site plan with us leaving the setbacks. It's really minimizing to anything you can do with the property.

00:22:16 Speaker 3

How many parking spaces?

00:22:19 Speaker 3

Will there be?

00:22:22 Speaker 2

Currently we have estimated between 15 and 18 parking spaces.

00:22:29 Speaker 3

I see.

00:22:29 Speaker 3

So the only issue I mean I feel for the owners of this property, I'm I'm not sure if you're aware of the Starbucks on La Vista Rd. at North Lake.

00:22:44 Speaker 2

I am, I am.

00:22:45 Speaker 3

Yeah, and that was such a poorly designed, you know, you you the there's like about 15 parking spaces and they concurrent with the drive through and it's it's a nightmare I I.

00:23:01 Speaker 3

I feel.

00:23:03 Speaker 3

This is going to be another situation you're not going to be able to turn left onto Skype.

00:23:09 Speaker 3

There's going to be a backlog of traffic on the connector, so you'd have to turn right onto Scott or right onto church because these left hand turns on four lane roads.

00:23:21 Speaker 3

At certain times of the day, just you.

00:23:24 Speaker 2

Right. So so currently there is no left turn and Scott because there's a median in between. So yeah, so just at this point the access, the way it's working is people are coming from Church St. they're turning connector and coming inside the property.

00:23:30 Speaker 3

OK.

00:23:38 Speaker 3

Coming in that way, and how do they get out?

00:23:39 Speaker 2

Right. And they leave. They leave from Church Street and they also have a right and right out at Connector Street. So they can't. They come out of Connector St. and make a right to get back to Scott. And if they want to go back on the other way, they have to make a U-turn.

00:23:54 Speaker 2

All the way to quick trip which.

00:23:57 Speaker 3

OK. Is there's a median on on Church 2?

00:23:57 Speaker 2

But no other.

00:23:58 Speaker 2

Way of.

00:24:01 Speaker 2

There is. There is no median and Church Street, but we haven't seen users use to make a left there as much as we've seen on Character Street. So you could use the church St. to make a left because there is a right and right out to get back to. But in order to go back to Scott on the other way, going back towards.

00:24:21 Speaker 2

Memory. You would have to make a U-turn. There is no way to get.

00:24:25 Speaker 2

Back on Scott.

00:24:27 Speaker 3

Right.

00:24:28 Speaker 2

Right. So it again, I we've definitely done studies where we definitely don't think traffic, but just the the building size on Starbucks that La Vista is humongous are much bigger. And that particular building the parking ratio was just awful. I've been to that level. I I had meeting at Starbucks.

00:24:47 Speaker 2

With one of my friends and I met at that, and I remember how difficult it was to park and then not only that, the ratio of the parking comparatively to the building size was was too big.

00:24:57 Speaker 2

And right.

00:24:57 Speaker 3

Correct and and not nothing. Nothing makes sense with how that was designed or even allowed to.

00:25:04 Speaker 2

Right, right, right.

00:25:06 Speaker 3

You know, I I just all I as a.

00:25:10 Speaker 3

Citizen and I'm I'm a realtor too. All I see is just increased traffic everywhere. I I don't see people utilizing bike lanes as much or you know, I mean cyclists are going to get hit. You know the the.

00:25:26 Speaker 3

It's are there dedicated. Forgive me because I don't live.

00:25:31 Speaker 3

I live in Tokyo Hills and I never go down Scott or church very frequently. So are there dedicated bike lanes that people can?

00:25:40 Speaker 2

Use so I've seen them all the way. I don't know if you know where the Whole Foods at. So they've developed lanes for. I've seen bike riders there, I've seen that.

00:25:51 Speaker 2

They're working towards coming towards more to the end of where our property is located at, so we are definitely preparing our island to make sure that we connect because that's what when we met with, with planning and development and zone.

00:26:08 Speaker 2

And we kind of had them at the site and had a meeting with them and they kind of basically told us that's what they're working on towards getting more sidewalks or side streets created for bike rack rides and so forth because they want mobilization because of all the multifamily and all the apartment complex that are built around it.

00:26:28 Speaker 2

With the size of this coffee user and the the way that the current curbs are and the traffic flow is, it would definitely not affect the traffic it again.

00:26:37 Speaker 2

And you know, we've been sitting on it for four years and saying let's not do anything to it and leave it the way it is and it just looks like a dead property. And we feel like doing something and investing into it to bring better outcome for the citizens is what we were thinking about. So again, we went through uses and uses and went through a lot of different stuff and and again.

00:26:58 Speaker 2

Kind of narrowed down to basically this one user that we could fit on it and again this will be not just a moment, pop. It will be a national credit tenant. So it will be a, you know brand recognition. So we'll have a nice brand new building and it will get.

00:27:12 Speaker 2

The look and make sure that with the new setbacks we will kind of all fall in place.

00:27:22 Speaker 3

OK.

00:27:26 Speaker 2

Any other questions? Uh, Jim, I I see another person.

00:27:31 Speaker 2

I just want to make sure that I take any other questions that you might and and thank you for joining the the the call and apologize if you didn't get the e-mail the first time, we did send another reminder earlier.

STATEMENT OF INTENT

Required by
DeKalb County Zoning Ordinance
For the
Special Land Use Permit
Of
Coffee Shop with Drive Thru
For
.52 Acres of Land
Located in
Land Lot 200, 15th District, DeKalb County
Address: 1726 Church Street

Submitted by Applicant:

Fariz Morani
RKR Investment Group
2929 Turner Hill Road
Lithonia, GA 30038
404-579-7468

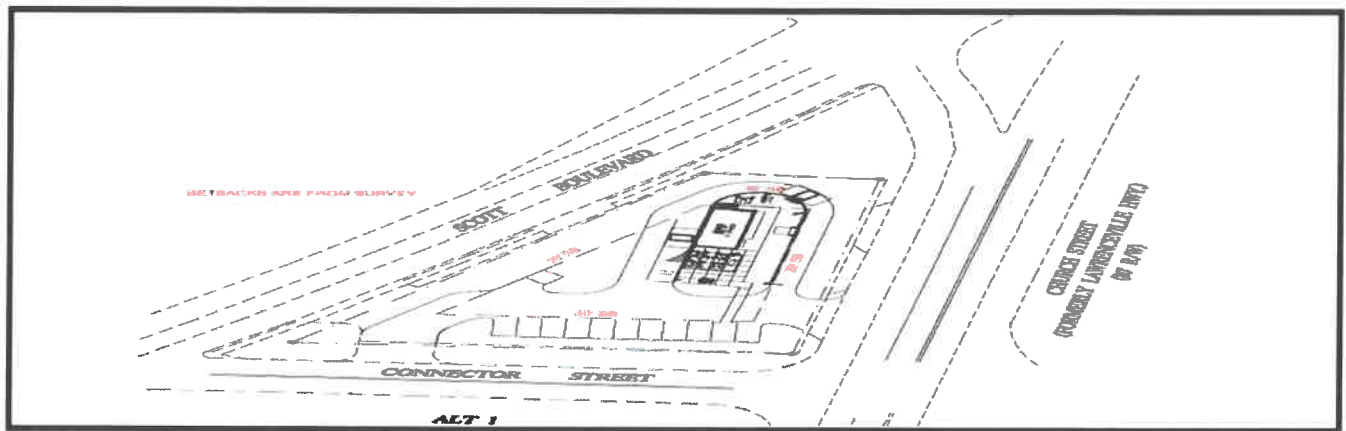

SEPTEMBER 3, 2023

APPLICANT: FARIZ MORANI

INTRODUCTION

This application seeks a Special Land Use Permit (SLUP) to allow for the demolition of the existing building (used car sales) and the construction of a small boutique coffee shop with drive-thru for a national franchise coffee shop located in Land Lot 200, 15th District, DeKalb County and addressed as 1726 Church Street - Parcel ID 18 062 03 001 (the Subject Property). The Subject Property is sandwiched between Scott Boulevard and Church Street (island) and the Applicant intends to develop a 0.52 acre tract of land with a 600 square foot boutique coffee shop with drive-thru and associated parking and site improvements. The intent is to bring a national tenant to this signature site consistent with the current re-development in the area.

Preliminary Drawing

The Proposed Development is an appropriate use for the boutique coffee shop with drive-thru given its zoning and location. The Subject Property is zoned Local Commercial (C-2) district and located within the Town Center activity center character area. The DeKalb County Zoning Code allows the proposed drive-thru restaurant in the C-2 district and in the activity center through the grant of a Special Land Use Permit. The subject parcel has 169 linear feet of frontage along Scott Boulevard, 221 linear feet of frontage along Church Street, and 180 linear feet of frontage along an unnamed Connector Street along the southern boundary. (Refer to the DeKalb County 2014 Transportation Plan Recommended Functional Classification Map) This irregularly shaped parcel sandwiched between two major collectors (highly travelled) limits the development to the parcel and limits the compatible land uses that will fit on the odd shaped parcel.

The Applicant will be improving the parcel and bring a tenant that can benefit from the existing traffic pattern. The site has two existing curb cuts and the proposed use will utilize the existing curb cuts. There are numerous commuters traveling to various destinations such as Suburban Plaza, North DeKalb Mall, Emory Hospital, Patel Plaza, Downtown Decatur, Point at Scott, and Shamrock Plaza. These

commuters will benefit from “easy” access to a facility for coffee on their way to the employment centers.

The DeKalb County 2050 Comprehensive Plan (“Comp Plan”) designates the Subject Property as being within the Town Center character area. It is also within the Medline LCI study area (Health and Wellness District). The theme of the Medline district is Healthy Economy, Healthy Mind, Healthy Landmark. As a result, the applicant offers:

- Healthy Mobility options will be afforded patrons (cars, pedestrian walks, bikes),
- Wellness Mobility accommodations to include Bike Racks, pedestrian cross walks (on and off-site),
- Wellness Connectivity achieved with striping for bike lane along Connector Street (discuss with Transportation) and Sidewalk enhancements where possible to allow 10-foot multi use path (along the Connector Street),
- Healthy Mind by operating the establishment as a Tobacco Free Zone, and
- Healthy options on the menus include herbal teas, juices, and coffee.

One of the intents of the Town Center character area is to concentrate residential and commercial uses to promote walkability.

The Applicant submits this document as a Statement of Intent regarding its Application, a preservation of the Applicant’s constitutional rights, and a written justification for the proposed SLUP as required by Section 27-7.4.6 of the DeKalb County Zoning Ordinance.

I. CRITERIA TO BE APPLIED TO SPECIAL LAND USE PERMITS

A. Adequacy of the size of the site for use contemplated and whether adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, and all other applicable requirements of the zoning district in which the use is proposed to be located.

The size of the Subject Property is adequate for the proposed boutique coffee shop and drive through. After going through several concept drawings and test fits, we find that the proposed use is uniquely appropriate for the irregular parcel with roads on three sides. The small coffee shop restaurant will be ±600 square feet and will replace the current building utilized for a used car lot dealership. The existing building is grandfathered and has no rear yard setback. The new building will be positioned to allow for all necessary parking, landscape, traffic circulation and the stacking of vehicles.

B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district.

The proposed national franchise coffee shop with drive thru is compatible with adjacent properties and land uses. As noted in the previous paragraphs, the Subject Property is sandwiched between Church Street and Scott Blvd on a triangular parcel. Both roads are heavily traveled major arterial, and Scott turns into Lawrenceville Highway. The Subject Property is entirely surrounded by properties zoned C-1 that are developed with various commercial uses. The surrounding uses consist of a Wendy's drive-thru on Scott Blvd, Chick-Fi-la on Church, and Duncan Donuts on Church. The proposed use is appropriate given the Subject Property's location and the existing uses in the area.

C. Adequacy of public services, public facilities, and utilities to serve the use contemplated.

The proposed restaurant will be ±600 square feet and it is not anticipated to have any negative impact on public utilities. There are adequate public services, public facilities, and utilities to serve the Proposed Development.

D. Adequacy of the public street on which the use is proposed to be located and whether there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area. The proposed small coffee shop with a drive-through is located on a parcel with frontage on Church Street and Scott Blvd.

Currently, these roads already carry significant traffic. The proposed coffee shop with a drive-thru will not increase traffic but will offer a service to existing commuters. The proposed use plans to utilize the existing curb cuts on Church Street and Connector Street. There is no access being proposed on Scott Blvd. Therefore, there is no anticipated traffic congestion as a result of the proposed use. The existing Connector Street provides convenient traffic flow for commuters desiring to turn right on Church Street or left on Scott Blvd.

E. Whether or not existing land uses located along access routes to the site will be adversely affected by the character of the vehicles or the volume of traffic generated by the proposed use.

No. The character of the vehicles and volume of traffic generated by the proposed use will be essentially identical to what exists today.

F. Adequacy of ingress and egress to the Subject Property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive

safety and convenience, traffic flow and control, and access in the event of fire or other emergency.

The subject site is situated on a triangular parcel with an existing curb cut on Church Street and the Connector Street. Although the site has a frontage along Scott Blvd., the applicant is NOT proposing an access on this roadway. The layout and design of the boutique coffee shop with drive-thru is designed to adequately accommodate both vehicular and pedestrian visitors. The proposed layout includes easy access for existing automobiles commuting past the site, pedestrians that may want to attempt to cross Church Street, and those wishing to bike to the establishment. The reason the drive-thru is appropriate is that both Scott Blvd. and Church Street are four lane roadways. Naturally, pedestrians attempting to cross these roads will be challenged. The applicant will work with GDOT to determine safety options for connecting this island with the other commercial properties.

G. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of noise, smoke, odor, dust, or vibration generated by the proposed use.

No, the proposed use will not create such adverse impacts. The Subject Property is surrounded entirely by commercial uses that will not be adversely impacted by the new construction of a coffee shop. Additionally, the drive-thru facilities will fully comply with the requirements of Section 27-4.2.3.

H. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the hours of operation of the proposed use.

No. Hours of use will mirror those of similar businesses in the area.

I. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner of operation of the proposed use.

No. As stated, there is a Wendy's Restaurant to the south of the site across the Connector Street. The proposed use will not constitute a more intense manner of operation that would adversely impact surrounding properties.

J. Whether the proposed plan is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.

As stated in subsection A above, the proposed use will be fully compliant with the C-2 district regulations.

K. Whether the proposed use is consistent with the policies of the Comprehensive Plan.

The Subject Property is designated as being in the "Town Center" (TC) character area and subject to the Medline LCI per the County's Comp Plan. The Medline LCI welcomes restaurant uses as an allowed primary use within the Town Center character area. As envisioned, the policies and vision focus on larger parcels being developed or redeveloped as a planned community. This parcel is an island sandwiched between Church Street and Scott Blvd. Pedestrians attempting to cross Church from Patel Plaza will be challenged and those trying to cross Scott Blvd will also face a significant challenge. The proposed boutique coffee shop is consistent with the wellness theme by offering a tobacco free zone, bike racks, enhanced sidewalks along the Connector Street for future connectivity to a future "path" developed by the County. The Proposed Development will improve the area by replacing the used auto dealership with a small restaurant with drive-thru and outside seating.

- L. Whether the proposed plan provides for all required buffer zones and transitional buffer zones where required by the regulations of the zoning district in which the use is proposed to be located.**

No buffer or transitional zones are required for the Subject Property.

- M. Whether there is adequate provision of refuse and service areas.**

The refuse and service areas will remain and will be adequate to accommodate the proposed coffee shop/restaurant.

- N. Whether the length of time for which the special land use permit is granted should be limited in duration.**

Because the boutique coffee shop with drive-thru is suitable for the Subject Property, there is no reason to limit the duration of the requested SLUP.

- O. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the Subject Property and in relation to the size, scale and massing of the adjacent and nearby lots and buildings.**

The size of the renovated restaurant will be smaller than the existing usage and is appropriate in light of adjacent and nearby properties.

- P. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.**

The Applicant is not aware of any historic buildings, sites, districts, or archaeological resources on or around the Subject Property.

Q. Whether the proposed use satisfies the requirements contained within the Supplemental Regulations for such special land use permit.

Yes. The boutique coffee shop and drive-thru facilities meet the requirements of Zoning Code § 27-4.2.23. Specifically, the drive-thru facilities will:

- (a) not be located within 60 feet of a residentially zoned property as measured from the speaker box;
- (b) not be located on a property less than 10,000 square feet in area and will meet the stacking requirements of Article VI;
- (c) provide drive-thru lanes and service windows on the side of the restaurant;
- (d) provide drive-thru canopies and structures constructed of the same materials and of the same architectural quality as the primary buildings;
- (e) meet the requirements for speaker boxes (the speakers are directed away from residential properties);
- (f) have lighting which will be directed away from any residential properties (the lighting will comply and there are no nearby residential properties);
- (g) provide stacking spaces with a minimum of 10' in width and 25' in length
- (h) provide sufficient stacking spaces for a drive-thru restaurant (the proposed design provides for 10 stacking spaces, each 10 feet wide and 25 feet long);
 - (1) have a drive-thru lane that will not impede on and off-site traffic, cross through off- street parking areas, or create unsafe conditions for pedestrians;
 - (2) provide a marked drive-thru lane separated by striping from off-street parking areas;
 - (3) include a bypass lane with a minimum width of 10';
 - (4) be set back at least 5' from all lot lines and right-of-way lines;
 - (5) be cleaned of litter and debris daily, along with the remainder of the property;
 - (6) not be located within 500 feet of an elementary, middle or high school;
 - (7) be operated pursuant to the SLUP requested herein; and
 - (8) use the appropriate distance measurements.

R. Whether the proposed use will create a negative shadow impact on any adjoining lot or building as a result of the proposed building height.

The new boutique coffee shop will not exceed the maximum height and is planned for one story and will not create any negative shadow impacts on any adjoining properties.

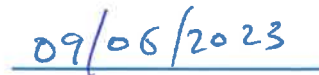

S. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, be compatible with the neighborhood, and would not be in conflict with the overall objective of the comprehensive plan.

The proposed boutique coffee shop will primarily serve travelers passing through the area and if safety cross walks can be developed in partnership with the County, the coffee shop will attract residents from the surrounding neighborhoods.

We respectfully request the approval of this Special Land Use Permit for a boutique coffee shop with drive-thru.

PURPOSE

To inform the residents/community
of a proposed Coffee Shop with
Drive-Thru to be located at
1726 Church Street

EXISTING FACILITY is a Used Car Dealership (*to be torn down*)

EXISTING USE - Used Auto Sales

REASON FOR REQUEST - *proposed use offers positive adaptive re-use of odd shaped parcel*

The subject site has major constraints which limits development options:

- ▶ *Irregular shaped lot* which makes it difficult to develop
- ▶ Site is an “*island*” *surrounded by two major thoroughfares* (Scott Boulevard and Church Street)
- ▶ There is high vehicular *traffic volumes “existing”*
- ▶ Proposed use will *accommodate existing travelers* going to work, hospital, shopping, or home with convenience.
- ▶ Size of site limits possible uses (parking requirements based on size of building, landscape, sidewalks, etc)

PROPOSED CONCEPT - COFFEE SHOP with Drive Thru (preliminary drawing)

COFFEE SHOP will redevelop this underutilized parcel

- ▶ *Mobility options* be highlighted (cars, pedestrian, bikes)
- ▶ Site Plan modifications: *Bike Racks*, cross walks on and off-site, Bike lane be painted on the Connector Street (discuss with transportation)
- ▶ *Sidewalks will be enhanced where possible* to serve as 10-foot multi-use path (specifically along the Connector Street)
- ▶ Willingness to work with DOT:
 - ▶ to create a landmark feature on the "*pointed green*" (*pets drinking fountain*)
 - ▶ to create a "*safe zone*" on the "*pointed green*"
- ▶ Business will be a "*Tobacco Free Zone*"
- ▶ Business will offer "*healthy*" options (herbal tea, juice bar, coffee)

Questions? Suggestions?

The slide features a white background with four decorative triangles in the corners. The top-right triangle is dark green. The bottom-left triangle is dark green. The bottom-right triangle is split diagonally, with a light yellow-green section on top and a dark green section on the bottom.
