PETITION NO: N2-2024-0628 SLUP-24-1246991

PROPOSED USE: In-home child day care, up to six (6).

PURPOSE:

Application of Ekwy Love for a Special Land Use Permit (SLUP) to allow an in-home child day care for up to six (6) in the RSM (Small Lot Residential Mix) zoning district.

RECOMMENDATION:

COMMUNITY COUNCIL: Approval with 1 condition.

PLANNING COMMISSION: (July 11, 2024) Pending.

PLANNING STAFF: Full cycle deferral.

STAFF ANALYSIS: This application for a Special Land Use Permit (SLUP) is for a proposed childcare facility at a singlefamily residential property located at 498 Crestwood Court. The applicant specializes in the care of special needs children aged six (6) weeks to twelve (12) years. The daycare operates from 6:30 AM to 6:30 PM, as per the submitted impact statement. Although this business has been in operation since 2002, there are several concerns that warrant a deferral of the application. One issue is the business's operational history, as clarification is needed. The business was initially established in 2002 under the name *1-2-3 Kids Inc.* but was dissolved in 2008. It was reestablished in 2021 under the name *Our Loving Mother Child Care, Inc.*, with Ekwy Love as the owner. There are no records of the business operating between 2008 and 2021, and searches under the names Ekwy Love, Ekwutosi T. Ume, and the registered agent Mareio Fraley revealed no other childcare businesses at this address during those years. The applicant will need to address staff concerns as part of their application. The property has an area of 8,712 square feet. While all necessary yards, open space, off-street parking, and other zoning requirements appear to be met, there may be concern regarding curb parking for pick-ups and drop-offs, however these activities tend to be brief and likely causes minimal traffic impact. The property is located within a Residential Small Mix (RSM) subdivision, and the proposed use is deemed compatible with the surrounding properties since it complies with the supplemental regulations. It appears that Crestwood Court has adequate traffic capacity to handle the traffic generated by the daycare, and ingress and egress from the property are sufficient, with direct access to the street ensuring pedestrian and automotive safety. Public services, facilities, and utilities are generally adequate to serve the proposed use, though additional information, such as a site plan or a count of bedrooms and bathrooms, is required for a thorough evaluation. The daycare's operating hours are unlikely to negatively impact neighboring properties, as the center has operated for two decades without major concerns from immediate neighbors. The proposed use aligns with the criteria specified by section 27-4.2.19, which are supplemental regulations for child daycares, and it promotes the policies of the comprehensive

plan for Suburban (SUB) Character Areas to provide essential services to residential communities (reference the page and section of comp plan here) Furthermore, the proposed utilization within an already established single-family residence aligns with the surrounding homes, with no plans for expansions or additions that would create inconsistencies with adjacent lots and buildings. There are no known historic buildings, sites, districts, or archaeological resources in the immediate vicinity that would be adversely affected by the proposed use. The proposed use satisfies all requirements contained within the supplemental regulations for an in-home daycare special land use permit. This application for a Special Land Use Permit (SLUP) at 498 Crestwood Court aims to establish a child daycare facility specializing in special needs children. While the property appears to meet most of the necessary zoning requirements and the proposed use appears to be compatible with the surrounding neighborhood, there are significant concerns about the business's operational history. Additionally, further information is needed to adequately evaluate public services and facilities. Given these issues, it is prudent to reassess the application to ensure all criteria are fully met, including a floor plan to address sufficient sewer capacity, and that the business is properly managed. Therefore, staff recommends a “Full Cycle Deferral to the September 2024 zoning cycle”.

PLANNING COMMISSION VOTE: (July 11, 2024) Pending.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval (10-0-0) with the condition that the SLUP be non-transferable.

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Thank you,

Mrs. Ekwy Love

April 12th, 2024

To Whom It May Concern,

My name is Ekwy Love and this is my letter of application. This document is for my special land use permit and should be used as such. The property in question is my home located on 498 Crestwood Court in Lithonia, Georgia, and is zoned RSM. I intend to use a portion of the property as an in-home daycare. This property is primarily my place of residence, and it shall also be used as my place of business; however, only certain parts of the property will be used for the daycare and those areas include the playroom, the adjoining bathroom, the living room, and the backyard. I am the only employee of my in-home daycare with my normal hours of operation being Monday through Friday from 6:30 am to 6:30 pm. The maximum number of children in my care is six (6), and I primarily work with children with special needs. The minimum age is 6 weeks old with a maximum age of 12 years.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ekwy Love', with a stylized, cursive script.

Impact of Analysis

- A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located.
 - a. The property spans 8,712 square feet, providing sufficient space to establish and run an in-home daycare. All necessary yards, open space, off-street parking, and any other applicable requirements have been fulfilled.

- B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.
 - a. The facility is located within a residential area that caters to families. The proposed use of the property is compatible with adjacent properties because there are currently children present in the neighborhood.

- C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use.
 - a. Since the area surrounding the proposed in-home daycare includes public streets, there are sufficient public services and amenities accessible. Additionally, the building offers several utilities.

- D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.
 - a. A driveway would serve as the means to enter and exit the facility. This would reduce traffic congestion by preventing cars from parking on the side of the road. Crestwood Court has sufficient carrying capacity to handle the amount of traffic that would be generated by the facility.

- E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures and uses thereon with particular references to pedestrian and automotive safety and convenience, traffic flow and control and access in the event of fire or other emergency.
 - a. If an emergency like a fire occurs, the facility will have sufficient means of entering and exiting the existing structure. The facility currently has ingress and egress from Crestwood Court.

- F. Whether or not the proposed use will create adverse impacts upon any adjoin land use by reason of the manners and hours of operation of the proposed use.

- a. The proposed operating hours for the in-home daycare should not have any negative effects on neighboring properties and adjoining land.
- G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.
 - a. The proposed use of the in-home daycare aligns with the criteria specified by the zoning district's 4 designations, which is where the property is currently situated.
- H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.
 - a. The planned use aligns with and promotes the policies of the comprehensive plan. It does not in any way conflict or detract from it.
- I. Whether there is adequate provision of refuse and service areas.
 - a. Adequate provision of refuse and services areas will be provided in the facility.
- J. Whether the length of time for which the special land use permit is granted should be limited in duration.
 - a. There appears to be no compelling reason for limiting the duration of the requested Special Land Use Permit.
- K. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.
 - a. The proposed utilization is within an already established family residence and aligns with the surrounding homes. There are no plans for expansions or additions that will cause inconsistency with adjacent lots and buildings.
- L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.
 - a. There are no known historic buildings, sites, districts, or archaeological resources in the immediate vicinity that will be adversely affected by the proposed use.
- M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.
 - a. The proposed use satisfies all requirements contained within the supplemental regulations for an in-home daycare special land use **permit**.

- N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.
- a. The proposed use is consistent with the needs of the neighborhood and community as a whole.
