Application of Wen Georgia, LLC c/o Dillard Sellers for a Special Land Use Permit (SLUP) for a drive through for a restaurant in the C-1 (Local Commercial) zoning district, within the Hidden Hills Overlay District, Tier 2.

RECOMMENDATION:

COMMUNITY COUNCIL: Approval.

PLANNING COMMISSION: Pending.

PLANNING STAFF: Denial.

STAFF ANALYSIS: The applicant is seeking approval for a Special Land Use Permit (SLUP) to establish a drive-through for a proposed Wendy's restaurant on a 1.16-acre site located along Redan Road. The property is situated within a C-1 (local commercial) zoning district. While the restaurant use is permitted by right, the drive-through component requires special approval via a SLUP. The site is currently vacant and surrounded by commercial, retail, and service uses. The proposed drive-through component is not recommended for approval due to concerns related to the site's location within the Neighborhood Center (NC) Character Area and the intent of the Great Hidden Hills Overlay, which both prioritizes compact, pedestrian-oriented development. The introduction of a drive-through facility is inherently automobile-centric, which conflicts with the intent of fostering walkability, reducing automobile dependency, and creating a more pedestrian-friendly environment along Redan Road. Nearby districts contain single-family and multi-family residential, which would be impacted by the proposal. Public services, facilities, and utilities are already in place to support the Wendy's and its drive-through operations. Redan Road, which will serve as the primary access route, is a five-lane minor arterial road that has adequate traffic capacity to handle the restaurant's operations. The removal of an existing curb cut along Redan Road will better support the County's desire to facilitate an improved pedestrian experience along Redan Road within the Neighborhood Activity Center. Additionally, ingress and egress to the site have been designed with pedestrian and automotive safety in mind. A new sidewalk along Redan Road will enhance pedestrian access, and the design allows for emergency vehicle entry, ensuring that safety requirements are met. Although there are existing drive-through establishments along Redan Road in the surrounding area, adding another drive through facility does not meet the intent and vision of the NC Character Area calling for a pedestrian community focused within a small to medium density mix of residential, office, and commercial uses (2050 Unified Plan, page 35).

Additionally, the proposed auto-oriented drive-through restaurant is not located at the edge of the NC Character Area where auto-oriented uses may warrant consideration. While the proposed Wendy's restaurant may be appropriate for the site, the drive-through component is inconsistent with the planning objectives of the area. The physical layout of the drive through further exacerbates these concerns by promoting automobile reliance and reducing available greenspace. The drive-through's configuration could also potentially lead to traffic backups that could interfere with the surrounding road network and businesses. Therefore, Staff recommends "Denial". Should the SLUP be approved, Staff recommends the attached conditions.

PLANNING COMMISSION VOTE: Pending.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval 7-1-0.

SLUP-24-1247108 (2024-0891)
Recommended Conditions Sept. 2024
4850 Redan Road, Stone Mountain 30088

1. Allow up to one drive-through lane on the site subject to compliance with C-1 (Local Commercial) zoning standards unless variances are obtained from appropriate regulatory authorities.
2. In order to promote pedestrian activity along Redan Road, the maximum front building setback shall be limited to 20 feet. No parking shall be located between the front façade of the building and the Redan Road right-of-way. Internal sidewalks must connect the principal entrance of the building to the public sidewalk along Redan Road, ensuring safe pedestrian access. Additionally, internal sidewalks shall connect parking areas behind the building to rear entrances, where applicable.
3. The building's street-facing facades shall not exceed forty (40) feet in length without incorporating architectural features such as projections, recesses, or other visually interesting elements. This ensures that the building contributes to the aesthetic quality of the area and avoids monotonous frontages.
4. Windows and/or doorways shall occupy at least twenty-five (25) percent of the first-floor street-level front façade width, enhancing the building's interaction with the street and promoting a more inviting environment for pedestrians.
5. Right-of-way dedication from centerline of Redan Road may be required.
6. The approval of this SLUP application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the Zoning Board of Appeals, or other entity.
7. Drive-through lanes and service windows shall be positioned to the side or rear of the building, avoiding placement in the front, in order to maintain a pedestrian-friendly streetscape. The drive-through canopy, where present, must be constructed from materials consistent with those used on the primary building and reflect a similar level of architectural quality and detailing.
8. Drive-through lanes shall not impede on-site or off-site traffic movement. They shall not intersect or pass-through off-street parking areas and shall not create unsafe conditions by crossing pedestrian access to public entrances. All drive-through lanes must be distinctly separated from parking areas using striping, curbing, or other clear delineations.
9. A bypass lane, with a minimum width of ten (10) feet, shall be provided to allow vehicles to navigate around the drive-through without entering the drive-through lane. This bypass lane may share space with a parking access aisle, ensuring efficient circulation.
10. Drive-through lanes shall maintain a minimum setback of five (5) feet from all property lines and roadway right-of-way lines to ensure a safe buffer between vehicular operations and adjacent properties or streets.
11. The property owner and operator shall be responsible for daily litter and debris cleanup to maintain the site in a clean and presentable condition. This includes regular maintenance of landscaped areas and the prompt removal of trash from the drive-through and parking areas.
12. Provide compliance with the supplemental regulations for drive-through facilities.

Staff Recommendation: Denial

The applicant is seeking approval for a Special Land Use Permit (SLUP) to establish a drive-through for a proposed Wendy’s restaurant on a 1.16-acre site located along Redan Road. The property is situated within a C-1 (local commercial) zoning district. While the restaurant use is permitted by right, the drive-through component requires special approval via a SLUP. The site is currently vacant and surrounded by commercial, retail, and service uses.

The proposed drive-through component is not recommended for approval due to concerns related to the site's location within the Neighborhood Center (NC) Character Area and the intent of the Great Hidden Hills Overlay, which both prioritizes compact, pedestrian-oriented development. The introduction of a drive-through facility is inherently automobile-centric, which conflicts with the intent of fostering walkability, reducing automobile dependency, and creating a more pedestrian-friendly environment along Redan Road. Nearby districts contain single-family and multi-family residential, which would be impacted by the proposal

Public services, facilities, and utilities are already in place to support the Wendy's and its drive-through operations. Redan Road, which will serve as the primary access route, is a five-lane minor arterial road that has adequate traffic capacity to handle the restaurant's operations. The removal of an existing curb cut along Redan Road will better support the County's desire to facilitate an improved pedestrian experience along Redan Road within the Neighborhood Activity Center. Additionally, ingress and egress to the site have been designed with pedestrian and automotive safety in mind. A new sidewalk along Redan Road will enhance pedestrian access, and the design allows for emergency vehicle entry, ensuring that safety requirements are met.

Although there are existing drive-through establishments along Redan Road in the surrounding area, adding another drive-through facility does not meet the intent and vision of the NC Character Area calling for a pedestrian community focused within a small to medium density mix of residential, office, and commercial uses (2050 Unified Plan, page 35). Additionally, the proposed auto-oriented drive-through restaurant is not located at the edge of the NC Character Area where auto-oriented uses may warrant consideration. While the proposed Wendy's restaurant may be appropriate for the site, the drive-through component is inconsistent with the planning objectives of the area. The physical layout of the drive-through further exacerbates these concerns by promoting automobile reliance and reducing available greenspace. The drive-through's configuration could also potentially lead to traffic backups that could interfere with the surrounding road network and businesses. Therefore, Staff recommends "Denial" of the proposed drive-through facility for a restaurant. Should the SLUP be approved, Staff recommends the following conditions.

1. Allow up to one drive-through lane on the site subject to compliance with C-1 (Local Commercial) zoning standards unless variances are obtained from appropriate regulatory authorities.
2. In order to promote pedestrian activity along Redan Road, the maximum front building setback shall be limited to 20 feet. 4. Windows and/or doorways shall occupy at least twenty-five (25) percent of the first-floor street-level front façade width, enhancing the building's interaction with the street and promoting a more inviting environment for pedestrians.
5. Right-of-way dedication from centerline of Redan Road may be required.
6. The approval of this SLUP application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the Zoning Board of Appeals, or other entity.
7. Drive-through lanes and service windows shall be positioned to the side or rear of the building, avoiding placement in the front, in order to maintain a pedestrian-friendly streetscape. Re: Rezone Application Review General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for:

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Introduction

Applicant, Meritage Hospitality Group, Inc., requests approval of a Special Land Use Permit for the property located at 4850 Redan Road in unincorporated DeKalb County and more specifically identified as Parcel ID No. 15 224 03 004 (the “Property”) shown circled below. The Property is approximately +/- 1.16 acres of land that is zoned C-1, Local Commercial District, and is within the Neighborhood Center Activity Center Character Area.

This application is submitted to allow for the redevelopment of the Property as a Wendy’s restaurant location with a drive-through lane. The new Wendy’s restaurant will replace the older Wendy’s restaurant at 1235 S. Hairston Road. By redeveloping this vacant site, the new restaurant will provide convenient, efficient, and accessible food service to meet the needs of the local community. Restaurants such as the Applicant’s intended use for the Property, are permitted uses on C-1 zoned properties. Drive-through facilities within Activity Center character areas require a Special Land Use Permit, pursuant to the Zoning Ordinance of DeKalb County (“Zoning Ordinance”), Table 4.1.

Prior use of the Property was a Pediatric & Adult Medical Clinic. However, the Property has remained vacant since the demolition of the previous building in 2017. Currently, there are no sidewalks along the property and no pedestrian crosswalks at the curb cuts. As reflected in the site plan, the curb-cut to Redan Road will be eliminated and sidewalks will be installed along Redan Road. By removing the curb cut and adding the sidewalk, the Applicant is supporting the County's desire to facilitate an improved pedestrian experience along Redan Road, further increasing connectivity in this area.

The Applicant is proposing a 2,228 square foot restaurant building with one (1) drive-through lane. The site layout includes pedestrian crosswalks and locates the drive-through window in the side of the restaurant, allowing safe pedestrian passage from Redan Road to the restaurant entrance. The drive-through feature adds convenience for residents and customers, including those with physical and mobility impairments and families with children. The sample elevations of the building prototype are included with this application materials. However, the building will include brick façade and will comply with the Overlay and the Zoning Code design requirements.

The restaurant and drive-through lane will operate in accordance with all provisions of the Zoning Ordinance, Section 4.2.23. The establishment of a drive-through lane will provide a use that is compatible with surrounding C-1 zoning and existing commercial uses. Applicant's restaurant provides an innovative and modern update to the outdated Wendy's restaurant that currently services the community, while greatly improving the pedestrian connectivity along Redan Road. The restaurant use will enhance the pedestrian experience at the Property and activate this vacant parcel.

As set forth below, the Applicant satisfies the County's requirements for a special land use permit for drive-through facilities. For these reasons, the Applicant respectfully requests its application to be granted as submitted.

Documented Impact Analysis

The Applicant's application satisfies the applicable criteria set forth in the Dekalb County Zoning Code, Section 27-1836; 27-7.4.6.

A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located:

The size of the site is adequate for the Applicant's restaurant and drive-through. The Property can accommodate all required yards, open space, off-street parking, buffer zones, and all other applicable requirements of the C-1 zoning district in which the use is proposed to be located.

B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use:

Applicant's restaurant with a drive-through is compatible with the surrounding area and land uses within the district. The uses on all surrounding parcels along Redan Road are commercial, retail, and service developments compatible with the proposed use.

Approval of this request will not create adverse impacts upon any adjoining land uses by reason of traffic volume, traffic congestion, noise, smoke, odor, dust or vibration.

C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use:

Adequate public services, facilities, and utilities exist to serve Applicant's restaurant and drive-through.

D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.:

Redan Road has two travel lanes in each direction and a center turning lane. There is sufficient capacity to support a new restaurant. The drive-through will not create an unduly risk in traffic and the closure of the curb cut onto Redan Road will be a benefit. Customers for the restaurant are anticipated to be local residents or people already in the Hidden Hills area as pedestrians or in their cars. Vehicular entry to the restaurant will be limited to the entrance to the Redan Village Shopping Mall, decreasing possible traffic congestion.

E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.

Applicant's development plan provides adequate ingress and egress to the Property and all buildings, structures, and facilities located thereon. The Applicant intends to remove the curb cut providing direct access to Redan Road. Access to the restaurant will be limited to the entry road to Redan Village Shopping Mall, increasing automotive and pedestrian safety and convenience. The redevelopment will also enhance the pedestrian access along Redan Road with a new sidewalk area. The site provides adequate space for traffic flow and access by emergency vehicles.

F. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use.

No, the restaurant drive-through and hours of operation will not create adverse impacts on the surrounding commercial properties.

G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.

Yes, the Applicant's restaurant with a drive-through lane is consistent with all requirements of C-1 classification.

H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.

Yes, the restaurant use with a drive-through lane is consistent with the policies of the County's comprehensive plan. The redevelopment will transform a vacant and unused parcel into a restaurant option for the surrounding neighborhood. The redevelopment will enhance the pedestrian experience along Redan Road by increasing the sidewalk area.

I. Whether there is adequate provision of refuse and service areas.

Yes, the new restaurant provides adequate refuse and service areas as indicated on the site plan.

J. Whether the length of time for which the special land use permit is granted should be limited in duration.

No, the approval for the drive-through use should not be limited in duration.

K. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.

The size, scale, and massing of the restaurant is appropriate in relation to the size of the Property and in relation to the size, scale and massing of adjacent and nearby lots and buildings. The Property is adjacent to the Redan Village Shopping Mall, and the new restaurant is consistent with the design of this local commercial complex. The restaurant is a one-story building and will not create a negative shadow impact on any adjoining lot or building.

L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.

No, the restaurant and drive-through will not adversely affect historic buildings, sites, districts, or archaeological resources. No historic or archaeological resources are known to be on the Property or in the immediate area.

M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit

Yes, as reflected in the submitted site plan, the restaurant satisfies the County's requirements and supplemental regulations for drive-through facilities.

N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.

Yes, the restaurant use in the location of a vacant parcel will be consistent with the community needs for additional food options in the area. The redevelopment of the site will help enhance the pedestrian experience in the corridor and provide aesthetic improvements. The development of convenient restaurant and drive-through lane on a long vacant lot is consistent with the needs of the neighborhood and the overall objectives of the comprehensive plan.

CONCLUSION

For the foregoing reasons, the Applicant respectfully requests that the DeKalb County Board of Commissioners approve the Special Land Use Permit as requested. If there are any questions about this request, you may contact me at 404-665-1242 or jsellers@dillardsellers.com.

Sincerely,

Required Constitutional Notice

Georgia law and the procedures of DeKalb County require the Applicant to raise Federal and State constitutional objections during the public hearing process. While the Applicant anticipates a smooth application process, failure to raise constitutional objections at this stage may mean that the Applicant will be barred from raising important legal claims later in the process. Accordingly, the following constitutional objections are stated:

The portions of the DeKalb County Zoning Ordinance, facially and as applied to the Property, which restrict the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than that proposed by the Applicant are unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

The application of the DeKalb County Zoning Ordinance, facially and as applied to the Property, which restricts the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than in accordance with the application as proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States; Article I, Section I, Paragraph I, and Section III, Paragraph I of the Constitution of the State of Georgia of 1983; and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this application would be unconstitutional under the Takings Clause of the Fifth Amendment to the Constitution of the United States and the Just Compensation Clause of Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983. A refusal by DeKalb County to grant the application as requested would constitute a taking of the Applicant's property. Because of this unconstitutional taking, DeKalb County would be required to pay just compensation to the Applicant.

A denial of this application would constitute an arbitrary and capricious act by DeKalb County without any rational basis therefore constituting an abuse of discretion in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States. A refusal to grant the requested special land use permit and other concurrent requests would lack objective justification and would result only from neighborhood opposition, which would constitute an unlawful delegation of the zoning power to non-legislative bodies in violation of the Georgia Constitution, Article IX, Section II, Paragraph 4.

A refusal by DeKalb County to grant the special land use permit and other concurrent requests for the Property in accordance with the criteria as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of the similarly situated property in violation of Article I, Section I,

Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any approval of the requests subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the Property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Property to a unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

A denial of this application would be unconstitutional. This notice is being given to comply with the provisions of O.C.G.A. § 36-33-5 and/or O.C.G.A. § 36-11-1 to afford the County an opportunity to approve the special land use permit and other concurrent requests as requested by the Applicant. If action is not taken by the County to approve the application within a reasonable time, a claim will be filed in the Superior Court of DeKalb County demanding just and adequate compensation under Georgia law for the taking of the Property, inverse condemnation, diminution of value of the Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.

Standing Objection

The Applicant further objects to the standing of each and every surrounding resident to challenge, whether before the Board or any court of competent jurisdiction, any zoning decision by the Board in that he/she has not shown, nor can show, that he/she will suffer special damages within the meaning of Georgia law as a result of said decision. The Applicant raises this objection before the Board and requests the Board to determine the standing of any individual who challenges or objects to the Board's decision to act on these zoning requests. Applicant further raises this objection before the Board to preserve said objection on appeal, if any, to any court of competent jurisdiction.

Evidence Objection

Applicant objects to the testimony and documentary evidence proffered by anyone opposed to the Application based on relevancy, inadmissibility, hearsay, lack of foundation and any other applicable evidentiary objection.

We respectfully request that the County grant the aforementioned zoning requests including the special land use permit and other concurrent requests by approving the Application. Should the County have any questions, suggestions and/or concerns, we ask that you bring these to our attention so they can be timely addressed.
