PURPOSE:

Application of Claudette Pile for a Special Land Use Permit (SLUP) for a personal care home, up to six (6) in the R-85 (Residential Medium Lot-85) zoning district.

RECOMMENDATION:

COMMUNITY COUNCIL: (October 2024) Approval.

PLANNING COMMISSION: (November 7, 2024) Denial.

PLANNING STAFF: Denial.

STAFF ANALYSIS: The proposed personal care home at 4293 Hambrick Way is located within an R-85 (Residential Medium Lot-85) zoning district and is surrounded by similar residential properties. While the zoning district allows personal care homes through a Special Land Use Permit (SLUP), this application does not comply with Section 27-4.2.41(B)(3) of the ordinance mandating a minimum separation of 1,000 feet between group personal care homes in residential areas to prevent the concentration of such facilities and the institutionalization of neighborhoods. According to DeKalb County GIS measurements, a personal care home at 1260 Hambrick is approximately 550 feet away. This clear violation makes the application noncompliant with zoning regulations for consideration of the Special Land Use Permit. The property consists of a 3,193-square-foot six (6)-bedroom home on 0.47 acres (20,473 square feet), which appears to have adequate size for a personal care home accommodating six individuals. The property benefits from adequate infrastructure. The home is located on a public street with sufficient access to utilities, including water and sewage, and no significant traffic impact is anticipated. In addition, personal care homes are not typically anticipated to create congestion issues. The driveway on the property provides sufficient parking space for staff, residents, and visitors, reducing the likelihood of overflow parking on the street. The proposed personal care home is generally consistent with the comprehensive plan's suburban (SUB) land use designation, which supports residential development and infill for populations that may face difficulty accessing housing. In principle, the personal care home could contribute to the community by providing care services for individuals in need of assistance. The property offers sufficient ingress and egress for safety and convenience, and no historic or archaeological sites are at risk. However, there is a lack of a detailed operational history for the care home, including how long it has operated and with how many residents, which adds to the uncertainty surrounding this application. In light of the violation of the minimum 1,000-foot separation requirement and the absence of a floor plan to verify the suitability of the space

for six individuals, the proposed personal care home at 4293 Hambrick Way does not meet the criteria for a Special Land Use Permit. Despite the potential benefits to the community and the adequacy of the site in terms of size, parking, and traffic, the application's failure to comply with the minimum distance requirement, along with the lack of critical supporting documentation, leads to a recommendation of ***Denial*** by staff based on review of Section 4.2.41.B.3 of the Zoning Ordinance.

PLANNING COMMISSION VOTE: (November 7, 2024) Denial 6-0-0. LaSonya Osler moved, Jan Costello seconded for denial, per Staff recommendation.

The proposed personal care home at 4293 Hambrick Way is located within an R-85 (Residential Medium Lot-85) zoning district and is surrounded by similar residential properties. While the zoning district allows personal care homes through a Special Land Use Permit (SLUP), this application does not comply with Section 27-4.2.41(B)(3) of the ordinance mandating a minimum separation of 1,000 feet between group personal care homes in residential areas to prevent the concentration of such facilities and the institutionalization of neighborhoods. According to DeKalb County GIS measurements, a personal care home at 1260 Hambrick is approximately 550 feet away. This clear violation makes the application noncompliant with zoning regulations for consideration of the Special Land Use Permit

The property consists of a 3,193-square-foot six (6)-bedroom home on 0.47 acres (20,473 square feet), which appears to have adequate size for a personal care home accommodating six individuals.

The property benefits from adequate infrastructure. The home is located on a public street with sufficient access to utilities, including water and sewage, and no significant traffic impact is anticipated. In

addition, personal care homes are not typically anticipated to create congestion issues. The driveway on the property provides sufficient parking space for staff, residents, and visitors, reducing the likelihood of overflow parking on the street.

The proposed personal care home is generally consistent with the comprehensive plan's suburban (SUB) land use designation, which supports residential development and infill for populations that may face difficulty accessing housing. In principle, the personal care home could contribute to the community by providing care services for individuals in need of assistance.

The property offers sufficient ingress and egress for safety and convenience, and no historic or archaeological sites are at risk. However, there is a lack of a detailed operational history for the care home, including how long it has operated and with how many residents, which adds to the uncertainty surrounding this application.

In light of the violation of the minimum 1,000-foot separation requirement and the absence of a floor plan to verify the suitability of the space for six individuals, the proposed personal care home at 4293 Hambrick Way does not meet the criteria for a Special Land Use Permit. Despite the potential benefits to the community and the adequacy of the site in terms of size, parking, and traffic, the application's failure to comply with the minimum distance requirement, along with the lack of critical supporting documentation, leads to a recommendation of **denial** by staff based on review of Section 4.2.41.B.3 of the Zoning Ordinance.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Letter of application

I plan to open a personal care home business in my home at 4293 Hambrick Way, Stone Mountain, GA 30083. I want my home to get zoned for six bed capacity. I am requesting this because the house has the square footage to handle the capacity, and it will allow me and my staff to help more people in need. My home is equipped with a fire sprinkler system and the house has a stair lift for clients who need assistance to get up steps. The house has the required square footage per the health department for all the clients to be comfortable in the residence. The house has a security alarm monitoring system and cameras that capture the entire property from all angles outside. We will have round-the-clock staffing 24 hours a day, seven days a week, and a nurse and nurse practitioner available for immediate nonhospital medical needs. All staff are CPR certified, OSHA 10 hours, and they will have all the required health department standards and requirements needed. There is a living room, dining room, kitchen, recreational room, and a huge deck and fenced backyard. The staff will include myself, my daughter and two others. I enjoy helping older people in need and being a part of making every moment of their life the best and happiest. I have been taking care of those in need for over 42 hours. It brings me great joy to fulfill their needs and see to it that they have the best care.

IMPACT ANALYSIS

A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use, including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located.

a. The property is located on .58 acres, the house is 3198 square feet and adequate land is available to operate a personal care home business. All required yards, open space, off-street parking, and all other applicable requirements are met.

B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.

b. The proposed use of the property is compatible with adjacent properties because there are other personal care home businesses in the area. The home has adequate parking spaces on the property and will not disrupt the flow of traffic.

C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use.

c. Given that the area surrounding the proposed personal care home contains public streets, adequate public services and facilities are available. There are also utilities available in the home.

D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.

d. A driveway would be used to enter and exit the personal care home. This would limit traffic because cars won't be parked off the side of the road.

E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.

e. In the event of an emergency such as a fire, the home will have adequate ingress and egress to the current structure. The home has a monitored fire sprinkler system.

F. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use.

f. The hours of operation proposed for the personal care home should not create any adverse impacts upon any adjoining land.

G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.

g. The proposed use is consistent with the requirements of the zoning district's four classifications in which the property is located.

H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.

h. The proposed use is consistent with advances, conflicts, or detracts from the policies of the comprehensive plan.

I. Whether there is adequate provision of refuse and service areas.

i. Adequate provision of refuse and services areas will be provided in the personal care home.

J. Whether the length of time for which the special land use permit is granted should be limited in duration.

j. There appears to be no compelling reason for limiting the duration of the requested Special Land Use Permit.

K. Whether the size, scale, and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale, and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.

k. The proposed use is in an existing family home and is consistent with nearby single-family homes. The applicant has no plans for expansions or additions that will cause inconsistency with adjacent lots and buildings.

L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.

l. There are no known historic buildings, sites, districts, or archaeological resources in the immediate area that will be adversely affected by the proposed use.

M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.

m. The proposed use satisfied all requirements contained within the supplemental regulations for a personal care home special land use permit.

N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.

n. The proposed use shows consistency with the needs of the community.
