

Dear Members of the Zoning Board of Appeals,

My name is Christina Patterson, and I am writing to formally request a variance from Section 27-2.2.1 of the DeKalb County Zoning Ordinance. My request pertains to the Lot Coverage maximums for my property at 521 Warren Ave, Scottdale, and the purpose of this variance is to facilitate the construction of a custom single-family home that will accommodate my daughter's wheelchair accessibility needs.

1. Physical Conditions of the Site:

The lot itself is perfect for most homes, however, the need for a single-story home for accessibility when bound by the Lot Coverage maximums constitutes a special case necessitating this variance request of 6.06%; a 2.31% increase for the home, porch, and garage, as well as an additional 3.75% increase for pervious concrete to be used for the driveway and walkway.

2. Minimum Variance Necessary:

I assure you that my request is solely for the minimum variance necessary to render the home fully wheelchair accessible and is essential to my daughter's ability to live independently in the home she will share with her husband.

3. Public Welfare:

This proposed custom home will meet (or exceed) all DeKalb County and Scottdale Overlay District specs and/or requirements, and building a new home in the Eskimo Heights neighborhood, where there are no less than fifteen vacant lots on Warren Avenue, will be a positive contribution to the revitalization efforts proposed and endorsed by the Scottdale Community Alliance. The requested variance will not pose any harm to the public welfare, neighboring properties, or any other overall improvements in the zoning district, as there are no material changes to the home that violate any ordinance and only minimal additional lot coverage. In keeping with the Dekalb County / Scottdale Overlay District's commitment to sustainability and stormwater control, we will use pervious concrete for the driveway, walkway, and anywhere deemed feasible by our builder.

4. Ordinance Hardship:

A strict interpretation of the zoning laws, in this case, would cause undue hardship for my daughter with her wheelchair accessibility needs. In trying to stay within the lot coverage parameters, we have reduced the footprint of the home as much as possible while still allowing her to be able to access all rooms of the house as easily as a non-wheelchair user as well as, have full accessibility accommodations in the kitchen, bathrooms, laundry room, closets, garage, and storage spaces. In addition, we have placed the garage at the back of the house to give her more privacy and security as she's leaving and entering her home, which also contributes to our lot coverage coverage.

5. Alignment with the Spirit of the Law:

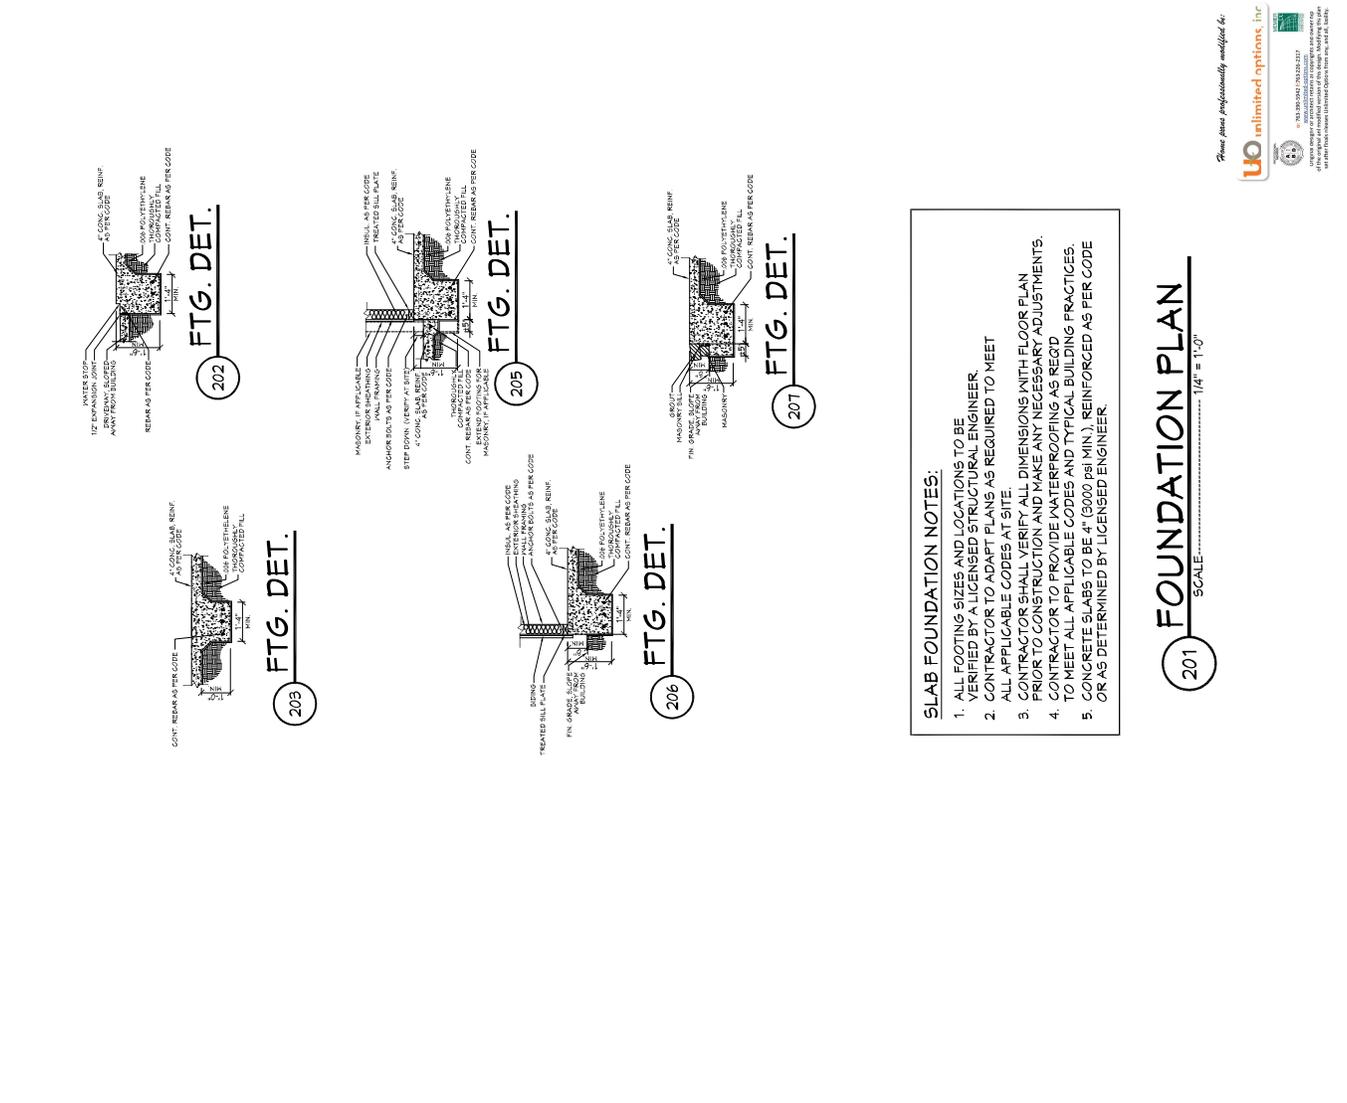

I firmly believe that my variance request aligns with the intent of the Suburban Character Area, as outlined in the DeKalb County Comprehensive Plan. The proposed construction of this new home is in line with the goals of the Scottdale Community Alliance as well, and their initiative to create a well-planned, walkable neighborhood with strong community involvement; it's our sincere hope this home will not only be a welcome addition to Eskimo Heights but will also encourage others to consider Scottdale when relocating. Our DeKalb County roots run deep as my parents chose to move here when my father came home from his tour of duty in Vietnam in 1970. I attended Clarkston High School (Class of '74 grad!), my son and daughter both came home from the hospital to our first home in Decatur, and now my son-in-law is a teacher at Decatur High School. Assuming this variance request is approved, I also plan to build my home in Scottdale so I'm (much) closer to them (and my granddaughter in Tucker).

In conclusion, I appreciate your time and consideration of my variance request. Please know I am committed to working collaboratively to ensure that my proposed changes align with the broader goals and policies of DeKalb County, and I thank you for your time and consideration in this matter.

Sincerely,

Christina Patterson

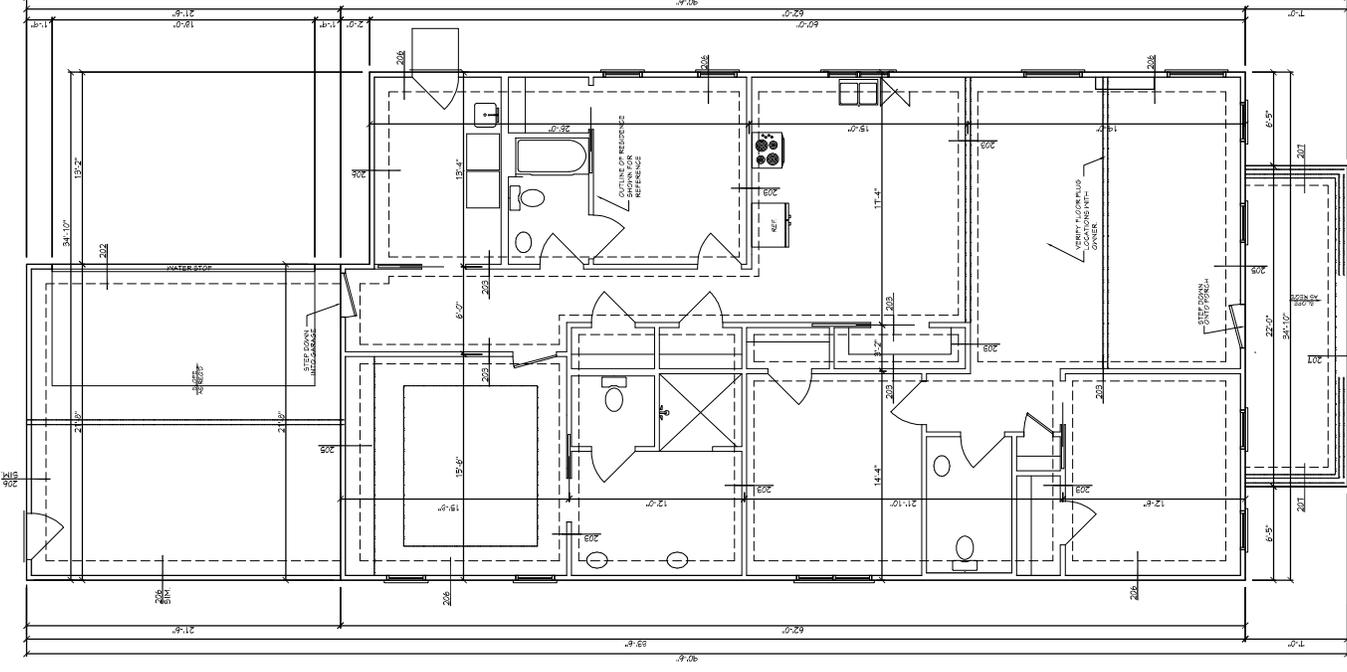

**SLAB FOUNDATION NOTES:**

1. ALL FOOTING SIZES AND LOCATIONS TO BE VERIFIED BY A LICENSED STRUCTURAL ENGINEER.
2. CONTRACTOR TO ADAPT PLANS AS REQUIRED TO MEET ALL APPLICABLE CODES AT SITE.
3. CONTRACTOR SHALL VERIFY ALL DIMENSIONS WITH FLOOR PLAN PRIOR TO CONSTRUCTION AND MAKE ANY NECESSARY ADJUSTMENTS.
4. CONTRACTOR TO PROVIDE WATERPROOFING AS PER BUILDING FRAGTICES TO MEET ALL APPLICABLE CODES AND TYPICAL BUILDING FRAGTICES.
5. CONCRETE SLABS TO BE #4 (6000 PSI MIN.) REINFORCED AS PER CODE OR AS DETERMINED BY LICENSED ENGINEER.

The field data upon which this plan is based has a closure precision of one foot in 15,000 feet and an angular error of 03" seconds per angle point and was adjusted using the Compass Rule. The final FLOOD HAZARD MAP OF DEKALB COUNTY, GEORGIA, Community Panel Number 15899C (6679), DATED 08/19/19, shows a closure and is found to be accurate within one foot in 100,000 feet.

Equipment used: Topcon 675-213 Total Station.

**FLOOD HAZARD STATEMENT**

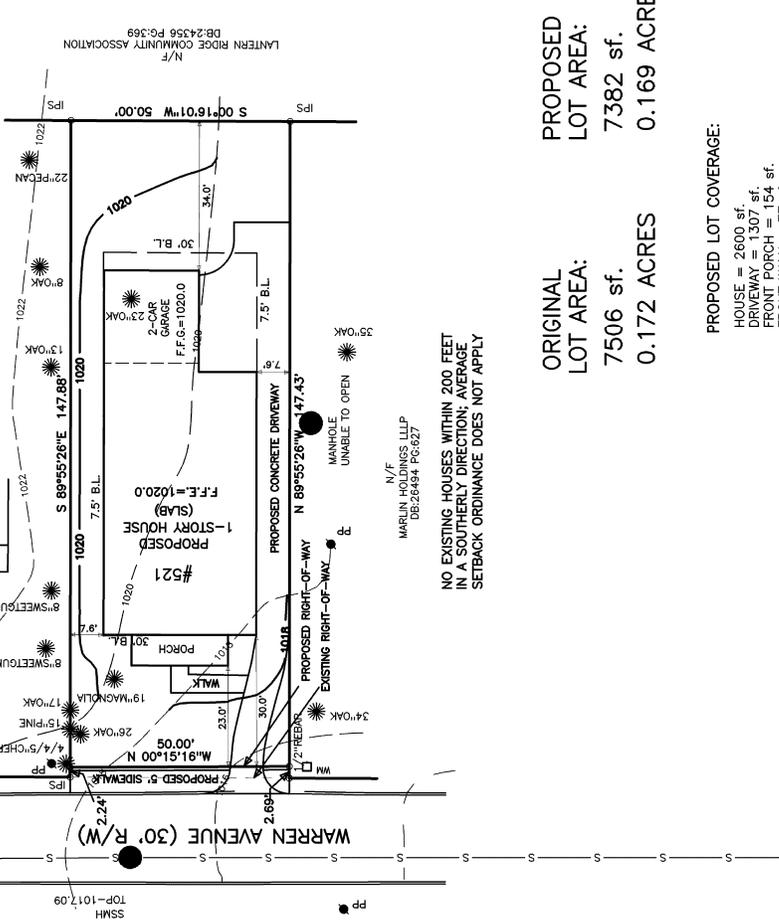

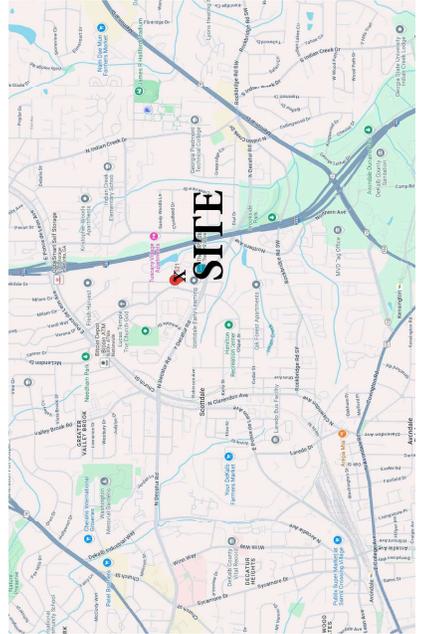

THIS PROPERTY IS NOT IN A FLOOD HAZARD AREA AS PER THE FIRM FLOOD HAZARD MAP OF DEKALB COUNTY, GEORGIA, COMMUNITY PANEL NUMBER 15899C (6679), DATED 08/19/19

DeKalb County Zoning Board of Appeals

178 Sam's St. Decatur, GA 30032

Subject: Letter of Support for Variance Request - 521 Warren Avenue  
Scottdale, GA 30079

Dear Members of the Zoning Board of Appeals,

I am expressing my strong support for the variance request submitted by Christina Patterson for the property located at 521 Warren Avenue. I am/we are her neighbor(s) at 525 Warren Avenue.

Why I Support the Variance:

- The proposed project will enhance the neighborhood by improving aesthetics with the construction of a new home on a lot that has been vacant for years and the site of frequent loitering and illegal dumping.
- The variance will alleviate a hardship on the property owner, as the home they are building is specifically designed to meet the homeowner's wheelchair accessibility needs as a paraplegic.
- The project is consistent with the spirit and intent of the DeKalb County Comprehensive Plan and Zoning Ordinance as a new

home build will contribute to the ongoing revitalization of the neighborhood.

- The variance request will not negatively impact adjacent properties or the surrounding community, as there will be no outwardly evident structural changes with the build, and, other than the requested lot coverage variance, the home will be built to DeKalb County and City of Scottdale recommendations and requirements.

Conclusion:

I respectfully urge you to grant the variance request for 521 Warren Avenue. I am confident that this project will be a positive addition to our community. Thank you for your time and consideration.

Sincerely,

Tamera Perry  
Samora Perry
