PETITION NO: N1-2026-0707 SLUP-26-1248084

PROPOSED USE: Package store.

PURPOSE:

Application of Virginia Singh and Manbir Singh for a Special Land Use Permit (SLUP) to allow a package store in the C-2 (General Commercial) zoning district and Tier 1 of the Hidden Hills Overlay District.

RECOMMENDATION:

COMMUNITY COUNCIL: (June 2026) Denial.

PLANNING COMMISSION: (July 7, 2026) Pending.

PLANNING STAFF: (July 2026) Denial.

STAFF ANALYSIS: The applicant is seeking a Special Land Use Permit (SLUP) to allow a package store in the C-2 (General Commercial) zoning district and Tier 1 of the Hidden Hills Overlay District. Pursuant to Section 4.2.8 A2 (*Supplemental Regulations*), package stores must be located a minimum of 600 feet from any residence, church, school building or grounds, educational facility, college campus, or adult entertainment establishment. Based on Staff's review, an institution of early childhood education is located approximately **470 feet** from the subject property. This distance was measured from easterly-most building wall of the subject property to the westerly most wall of the educational facility using the county's electronic distance measurement (EDM) tool. Therefore, the proposal does not satisfy the required separation distance. Additionally, the subject site is located within the Neighborhood Center (NC) Character Area and appears inconsistent with the goals and policies of the *DeKalb 2050 Unified Plan*. The NC Character Area is intended to serve as a focal point for surrounding neighborhoods that provide a mix of commercial, office, residential, and public spaces that are accessible to pedestrians (Pg.33). While retail uses are appropriate uses in the Neighborhood Center Character Area, the proposed package/ liquor store does not appear to enhance intended pedestrian-oriented, civically engaging development pattern envisioned for the NC Character Area. As submitted, the site plan does not include public gathering space, civic-oriented design features, or enhancements to pedestrian mobility that would support the future development of a walkable Neighborhood Center. Further, in local studies, including that prepared by Dean Badney, Brent Teasdale, and Audrey Clubb of (of Georgia State University's Andrew Young School of Policy Studies) entitled *The Relationship between SLUP 6 businesses and Negative Outcomes in DeKalb County*, package/liquor stores are one of six business types requiring a Special Land Use Permit (or "SLUP") that are associated with adverse impacts to public safety, public health, economic development and the general well-being

of individuals and neighborhoods. The subject site is located at the intersection of Covington Highway and South Hairston Road, where similar automobile-oriented uses already exist on the surrounding corners. Approval of the proposed package store may further concentrate SLUP-6 uses in a manner that is inconsistent with the intent of Section 4.1.1 and the Special Land Use Permit criteria of Section 7.4.6(B), *Staff must consider the compatibility of the proposed use with adjacent properties and land uses, as well as other properties and land uses in the district, including whether the proposed use will create adverse impacts upon adjoining land uses by reason of traffic volume or congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.* As such, Staff finds the proposal is inconsistent with 4.2.8 A2 (*Supplemental Regulations*), Sections 4.1.1 (*SLUP- 6*), and 7.4.6 (*Special Land Use Permit Criteria*) of the Zoning Ordinance and recommends “**Denial**”.

As such, Staff finds the proposal is inconsistent with 4.2.8 A2 (*Supplemental Regulations*), Sections 4.1.1 (*SLUP-6*), and 7.4.6 (*Special Land Use Permit Criteria*) of the Zoning Ordinance and recommends **“Denial”**.

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network
or
begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

I. LETTER OF INTENT

Urbanvue Apartments, LLC (the “Applicant”) is seeking to redevelop an existing vacant office building on +/- 5.66 acres of land being Tax Parcel Nos. 18 283 04 001 and 18 266 05 014, having frontage on 3003 Chamblee-Tucker Road and 2936 Mercer University Drive (the “Subject Property”), into a build to a 41 unit for sale townhome community. The Subject Property is currently zoned O-I with a land use designation of Regional Center. The Application is seeking to rezone the property from O-I to MR-1 with a density of 7.25 units per acre based on the site plan submitted with this Application.

This document serves as a statement of intent, analysis of the criteria under the DeKalb County zoning ordinance and contains notice of constitutional allegations as a reservation of the Applicant’s rights.

II. DEKALB COUNTY REZONING CRITERIA

When considering rezoning applications, the DeKalb County Code of Ordinances states that the following criteria shall be considered:

1. *Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan;*

The proposed rezoning is consistent with the Subject Property’s Land Use Designation under the County’s Comprehensive Plan. MR-1 is an allowed zoning district, and the proposed density at 7.25 units per acre is less than 75 units per acre or more density allowed under the Regional Center land use designation. While the density for the proposed project is at the lower end of the scale, this is appropriate based upon the fact that the Subject Property is adjacent to single family homes zoned R-100 on the North side of the Subject Property. This density and product type provides a suitable transition zone between the core of the activity center and the adjacent neighborhood which is outside of the activity center.

2. *Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;*

As stated above, the Subject Property is located along the edge of the Regional Center activity center, and abuts R100 property within the Suburban land use district. The proposed rezoning will support a use that is suitable adjacent to the abutting single-family community. With respect to the adjacent commercial uses, the proposed project will provide a live work option for those working in the adjacent and nearby commercial/office spaces, which supports the continued growth and viability of the Embury Hills community with more homeowners who will be connected to the community long term.

Battle Law

3. *Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;*

Due to the residual impact of the COVID crisis of 2020-2021, the office market in DeKalb County has experienced a significant downturn in the viability of office builds such as the one on the Subject Property. The building has been vacant for years, with few if any prospects for full occupancy of the building. As a result, the Subject Property has marginal use as an office building. This is supported by the fact that a few years ago the DeKalb County Board of Commissions approved a Special Land Use Permit for the Subject Property to allow for the conversion of the building from office space to 47 residential dwelling units. Unfortunately, due to the conversion costs the Applicant elected not to move forward with the conversion of the building, but is instead looking to demolish the existing improvements and redevelop the property for 41 for sale units, which is more in alignment with providing a variety of residential options in an area that has a significant of established rental and single family detached units already in the area.

3. *Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby properties;*

The zoning proposal will not adversely affect the existing use or usability of adjacent or nearby properties. The adjacent offices North and South of the Subject Property will benefit from having a live work option immediately adjacent to their sites. As for the single-family community east of the Subject Property, a buffer will be maintained along the boundary line, and the subdivision has direct access to Chamblee -Tucker Road. The Subject Property only has direct access to Mercer University Drive. Therefore, there should be minimal traffic impact on the adjacent residential community.

4. *Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;*

The Subject Property is located within a character area that is growing. Mercer University has been investing in improving its residential options for its graduate student population. Additionally, the Regal Theater off the I-85 Access Road is being redeveloped for a traditional apartment community. The proposed townhome community will provide for more home ownership for young professionals with easy access to the interstate and surrounding area. Additionally, due to the size and shape of the Subject Property, along with the stream buffer that crosses through the front yard, the buildable envelope of the Subject Property is significantly reduced. Any significant increase in density and change in product type would require more vertical development which is not supported by the adjacent residential neighborhood.

Battle Law

5. *Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources;*

The zoning proposal will not adversely affect historic buildings, sites, districts, or archaeological resources, and is not located within a historic district.

6. *Whether the zoning proposal will result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools; and*

The zoning proposal will not result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. The proposed use will have little to no effect on the aforementioned resources.

7. *Whether the zoning proposal adversely impacts the environment or surrounding natural resources*

The zoning proposal will not impact the environment or surrounding natural resources.

III. CONCLUSION

For the foregoing reasons, the Applicant hereby requests that the application to rezone the Subject Property from O-I to MR-1 for 41 townhome units be approved. The Applicant welcomes any questions and feedback from the planning staff.

IV. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF CONTITUTIONAL RIGHTS

The portions of the DeKalb County Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the DeKalb County Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the DeKalb County Board of Commissioners to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any Special Land Use Permit of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

Battle Law

A refusal to rezone the Subject Property in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to rezone the Subject Property in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of DeKalb County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.
