

**Public Hearing:** YES  NO

**Department:** Planning & Sustainability

**SUBJECT:**

**COMMISSION DISTRICT(S):** 4 and 6

**Application of Claudette Pile for a Special Land Use Permit (SLUP) renewal to allow a Personal Care Home (PCH) for up to six clients in the R-85 (Residential Medium Lot-85) zoning district, at 4293 Hambrick Way.**

**PETITION NO:** N5-2026-0711 SLUP-26-1248092

**PROPOSED USE:** Personal care home SLUP renewal for up to six clients.

**LOCATION:** 4293 Hambrick Way, Stone Mountain, Georgia 30083

**PARCEL NO. :** 18 122 03 053

**INFO. CONTACT:** Lucas Carter, Planner

**PHONE NUMBER:** 404-371-2155

**PURPOSE:**

Application of Claudette Pile for a Special Land Use Permit (SLUP) renewal to allow a Personal Care Home (PCH) for up to six clients in the R-85 (Residential Medium Lot-85) zoning district.

**RECOMMENDATION:**

**COMMUNITY COUNCIL:** (June 2026) Approval.

**PLANNING COMMISSION:** (July 7, 2026) Pending.

**PLANNING STAFF:** (July 2026) Approval with Condition(s).

**STAFF ANALYSIS:** The applicant is requesting renewal of a previously approved Special Land Use Permit (SLUP) for a personal care home for up to six (6) residents at 4293 Hambrick Way. The subject property is located within the R-85 (Residential Medium Lot-85) zoning district and is surrounded by single-family residential properties with the same R-85 zoning classification. The prior SLUP approval was issued with a condition limiting the approval period to twenty-four (24) months, requiring the applicant to return for renewal review. The personal care home distance separation issue identified during the original review remains in effect. Section 27-4.2.41(B)(3) of the Zoning Ordinance requires a minimum separation of 1,000 feet between group personal care homes in residential areas to avoid the institutionalization of residential neighborhoods. Based on DeKalb County GIS measurements, an existing personal care home at 1260 Hambrick Road is located approximately 550 feet from the subject property. However, this request is distinguishable from the original review because the use has now operated under the prior SLUP approval for approximately two years. Based on available information, staff is not aware of documented disturbances, code enforcement concerns, traffic impacts, parking issues, or other adverse effects associated with the personal care home during the prior approval period. The absence of documented operational impacts provides support for renewal, despite the continued separation noncompliance. The property consists of a 3,193-square-foot, six-bedroom home on approximately 0.47 acres, or 20,473 square feet. The size of the structure and parcel appears adequate to support a personal care home for up to six residents. The existing driveway provides on-site parking for staff, residents, and visitors, and the use is not anticipated to generate substantial traffic or create congestion beyond what is typical for a low-intensity residential care use. The subject property also benefits from adequate public infrastructure, including frontage on a public street and access to public utilities. No substantial changes to the exterior residential character of the property are proposed

as part of this renewal request. Continued operation of the personal care home, subject to conditions, is not expected to alter the residential character of the surrounding neighborhood. The proposed use remains generally consistent with the Suburban (SUB) character area designation of the Comprehensive Plan, which supports residential development and compatible infill housing opportunities. Personal care homes may provide needed residential care options for individuals requiring assistance, provided that the use remains compatible with the surrounding neighborhood and does not create adverse impacts. In conclusion, staff acknowledges that the existing 1,000-foot separation issue remains unresolved and should continue to be noted in the record. However, given the applicant's prior two-year operational period without documented disturbance or adverse neighborhood impact, staff finds that renewal of the Special Land Use Permit may be appropriate with conditions. Therefore, staff recommends "*Approval with the attached condition*".

**PLANNING COMMISSION VOTE: (July 7, 2026) Pending.**

**COMMUNITY COUNCIL VOTE/RECOMMENDATION: (June 2026) Approval 7-0-0.**

**SLUP-26-1248092 (2026-0711)**  
**Recommended Condition\_July 2026**  
**4293 Hambrick Way, Stone Mountain 30083**

1. The Special Land Use Permit shall be specific to the applicant and the property identified in this application. The approval is non-transferable to any other property owner or operator. In the event of a change in ownership or operation, the new owner/operator must submit a new application for review, and the Special Land Use approval shall be voided upon transfer of ownership.

**STAFF RECOMMENDATION: Approval with Condition(s).**

The applicant is requesting renewal of a previously approved Special Land Use Permit (SLUP) for a personal care home for up to six (6) residents at 4293 Hambrick Way. The subject property is located within the R-85 (Residential Medium Lot-85) zoning district and is surrounded by single-family residential properties with the same R-85 zoning classification. The prior SLUP approval was issued with a condition limiting the approval period to twenty-four (24) months, requiring the applicant to return for renewal review.

The personal care home distance separation issue identified during the original review remains in effect. Section 27-4.2.41(B)(3) of the Zoning Ordinance requires a minimum separation of 1,000 feet between group personal care homes in residential areas to avoid the institutionalization of residential neighborhoods. Based on DeKalb County GIS measurements, an existing personal care home at 1260 Hambrick Road is located approximately 550 feet from the subject property.

However, this request is distinguishable from the original review because the use has now operated under the prior SLUP approval for approximately two years. Based on available information, staff is not aware of documented disturbances, code enforcement concerns, traffic impacts, parking issues, or other adverse effects associated with the personal care home during the prior approval period. The absence of documented operational impacts provides support for renewal, despite the continued separation noncompliance.

The property consists of a 3,193-square-foot, six-bedroom home on approximately 0.47 acres, or 20,473 square feet. The size of the structure and parcel appears adequate to support a personal care home for up to six residents. The existing driveway provides on-site parking for staff, residents, and visitors, and the use is not anticipated to generate substantial traffic or create congestion beyond what is typical for a low-intensity residential care use.

The subject property also benefits from adequate public infrastructure, including frontage on a public street and access to public utilities. No substantial changes to the exterior residential character of the property are proposed as part of this renewal request. Continued operation of the personal care home, subject to conditions, is not expected to alter the residential character of the surrounding neighborhood.

The proposed use remains generally consistent with the Suburban (SUB) character area designation of the Comprehensive Plan, which supports residential development and compatible infill housing opportunities. Personal care homes may provide needed residential care options for individuals requiring assistance, provided that the use remains compatible with the surrounding neighborhood and does not create adverse impacts.

In conclusion, staff acknowledges that the existing 1,000-foot separation issue remains unresolved and should continue to be noted in the record. However, given the applicant's prior two-year operational period without documented disturbance or adverse neighborhood impact, staff finds that renewal of the Special Land Use Permit may be appropriate with conditions. Therefore, staff recommends ***“Approval with the following condition”***:

1. The Special Land Use Permit shall be specific to the applicant and the property identified in this application. The approval is non-transferable to any other property owner or operator. In the event of a change in ownership or operation, the new owner/operator must submit a new application for review, and the Special Land Use approval shall be voided upon transfer of ownership.

## Special Land Use Permit (SLUP) Request: Detailed Section

### Claudi Cares Personal Home Care, LLC

#### **Reasons for Requesting SLUP**

The SLUP is required to comply with zoning regulations and to meet the community's need for specialized personal care services. Approval will allow the business to operate legally while serving its clientele effectively.

#### **Qualifications**

I bring to the personal care home industry over 40 years of professional experience in the healthcare sector, I am a certified home health aide holding multiple credentials in elderly care, dementia support, and related specialties. I possess all necessary certifications and licenses, and the facility is staffed exclusively by qualified and thoroughly trained professionals. In addition to my formal qualifications, I have considerable personal experience of caring for my mother and both grandparents throughout their final years. These combined experiences provide the comprehensive expertise essential for the successful operation of a personal care home.

#### **Key Functions for Business Operation**

**Provision of Residential Care:** The facility offers safe and comfortable housing for residents, ensuring their physical and emotional needs are met.

**Educational and Recreational Programs:** Internal and external education opportunities, along with recreational activities, are provided to foster personal growth and well-being of residence and staff.

**Food Services:** Nutritious meals are prepared and served daily, accommodating dietary requirements and preferences of residents. About 95 percent of the ingredients used are organic and health conscious.

#### **Impact on Neighbors and Measures to Address Concerns**

Operations are designed to minimize neighborhood impact through controlled visitation hours, discreet signage, noise management, landscaping for privacy, and ongoing communication with neighbors. Security is supported by 10+ cameras providing full exterior coverage and interior monitoring. Off-street parking accommodates up to six vehicles.

#### **Facility and Operations Details**

**Number of Rooms:** 5-bedroom rooms and 4 bathrooms

**Persons Served:** Licensed for up to 6 residents

**Employees:** 2 permanent staff members, not including CNA caregivers (1099 Contractors) that provide additional support.

**Residents' Needs:** Individualized care plans, provide 24-hour care, offer supportive services such as meal preparation, medication management, housekeeping, and help with activities of daily living (bathing, dressing etc.).

**Manner of Operations:** Internal classes, external educational excursions, structured recreational activities, and comprehensive food services for both staff and residence.

**Hours of Operation:** 24 hours a day, 7 days a week – Visiting hours are from 9am to 9pm for immediate family and 10am to 6pm for other visitors (visitors are advised to call prior to coming to the house), this helps to control traffic in the area.

**Security Cameras:** 10 plus cameras located throughout the interior and exterior of the property with 360 coverage of the exterior.

**Off-Street Parking Spaces:** The parking area can hold up to 6 vehicles.

Response to Section 27-7.4.6 Special Land Use Permit Criteria

Impact Analysis – Claudi Cares Personal Home Care

**A. Is the size of the site adequate for the use contemplated and is adequate land area is available for the proposed use, including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located?**

**a. Site Size and Adequacy**

The subject property is of sufficient size to accommodate the proposed use. Adequate land area is available to meet all applicable zoning requirements, including required yards, open space, off-street parking, buffering, and other development standards of the underlying zoning district. The site layout demonstrates that the proposed use can be accommodated without overcrowding or over-intensification.

**B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.**

**b. Compatibility with Adjacent Uses**

The proposed use is compatible with surrounding properties and land uses within the district. The property has been designed to minimize potential adverse impacts related to traffic, noise, odor, dust, vibration, or other operational effects. Appropriate site design measures and compliance with applicable regulations ensure that adjoining properties are not negatively affected.

**C. Are public services, public (or private) facilities, and utilities adequate to serve the proposed use?**

**c. Adequacy of Public Services and Utilities**

Public and/or private services, facilities, and utilities are available and adequate to serve the proposed use. The house will be supported by existing or planned infrastructure without placing an unreasonable burden on public services.

**D. Is the public street on which the use is proposed to be located adequate and is there sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area?**

**d. Public Street and Traffic Capacity**

The public street system serving the site is adequate to accommodate the anticipated traffic generated by the proposed use. The project is not expected to create undue congestion or adversely impact the capacity or safety of the surrounding roadway network.

**E. Is the ingress and egress adequate to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency?**

**e. Ingress, Egress, and Emergency Access**

The site provides safe and adequate ingress and egress for vehicles and pedestrians. Access points are designed to promote efficient traffic flow, minimize conflicts, and ensure adequate access for emergency vehicles in compliance with applicable standards.

**F. Will the proposed use create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use?**

**f. Hours and Manner of Operation**

The manner and hours of operation of the proposed use are not expected to create adverse impacts on adjacent properties. Operational characteristics are consistent with surrounding land uses and the intent of the zoning district.

**G. Is the proposed use otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located?**

**g. Consistency with Zoning District**

The proposed use is consistent with the purpose and intent of the zoning district in which it is located and complies with all applicable requirements of Article 4 and other relevant provisions of the zoning ordinance.

**H. Is the proposed use consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan?**

**h. Consistency with the Comprehensive Plan**

The proposed use is consistent with and supports the goals, policies, and land use recommendations of the Comprehensive Plan. The development advances orderly growth and appropriate land use patterns within the community.

**I. Is there adequate provision of refuse and service areas?**

**I. Refuse and Service Areas**

Adequate provision is made for refuse collection and service areas. These areas are appropriately located and designed to minimize visual, noise, and operational impacts on surrounding properties.

**J. Should the length of time for which the SLUP is granted be limited in duration?**

**j. Duration of the SLUP**

The proposed use does not necessitate a limitation on the duration of the Special Land Use Permit. The use is appropriate for approval on a permanent basis, subject to continued compliance with all applicable regulations and conditions of approval.

**K. Is the size, scale and massing of proposed buildings appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and will the proposed use create any shadow impact on any adjoining lot or building as a result of the proposed building height?**

**k. Building Size, Scale, and Massing**

The size, scale, and massing of any proposed buildings are appropriate in relation to the subject property and surrounding development. Building height and placement are designed to avoid adverse shadow impacts on adjacent lots or structures.

**L. Will the proposed use adversely affect historic buildings, sites, districts, or archaeological resources?**

**l. Historic and Archaeological Resources**

The proposed use will not adversely affect any known historic buildings, sites, districts, or archaeological resources. No impacts to protected or significant cultural resources are anticipated.

**M. Does the proposed use satisfy the requirements contained within the supplemental regulations for such special land use permit?**

**m. Supplemental Regulations**

The proposed use satisfies all applicable supplemental regulations required for approval of a Special Land Use Permit under the zoning ordinance.

**N. Will the proposed use be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process?**

**n. Neighborhood and Community Needs**

The proposed use is consistent with the needs of the surrounding neighborhood and the community as a whole. Input received during the 2024 review process indicates that the project is compatible with community expectations and contributes positively to the area.

### Zoning Comments July 2026

**N1. SLUP-26-1248084 (2026-0707 ) 5395 Covington Highway:**

Covington Highway is classified as a Major Arterials, also a Georgia State Route. Refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. If not already in place: Requires a right of way dedication of 75 feet from the centerline of roadway, all public infrastructure must be within right of way. Requires a 10-foot multiuse path with pedestrian scale streetlights. Verify that all access points have intersection and stopping sight distance as described by AASHTO.

**N2. Z-26-1248023 (2026-0708) 2570 McAfee Road:**

McAfee Road is classified as a Collector. Land development permit is required- Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 35 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multi-use path. It requires pedestrian scale streetlights. ([hefowler@dekalbcountyga.gov](mailto:hefowler@dekalbcountyga.gov)). Verify that all access points have intersection and stopping sight distance as described by AASHTO.

**N3. Z-26-1248094 (2026-0709) 3040 Briarcliff Road:**

Briarcliff Road is classified as a Minor Arterial. If a land development permit is required- Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 40 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multi-use path. It requires pedestrian scale streetlights ([hefowler@dekalbcountyga.gov](mailto:hefowler@dekalbcountyga.gov)). Verify that all access points have intersection and stopping sight distance as described by AASHTO.

**N4. SLUP-26-1248091 (2026-0710) 3319 Tarragon Drive:**

Tarragon Drive is classified as a local roadway. Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5-foot landscape strip with a 5-foot sidewalk. It requires pedestrian scale streetlights. ([hefowler@dekalbcountyga.gov](mailto:hefowler@dekalbcountyga.gov)).

**N5. SLUP-26-1248092 (2026-0711) 4293 Hambrick Way:**

Hambrick Way is classified as a local roadway. Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5-foot landscape strip with a 5-foot sidewalk. It requires pedestrian scale streetlights. ([hefowler@dekalbcountyga.gov](mailto:hefowler@dekalbcountyga.gov)).

**N6. SLUP-26-1248093 (2026-0712) 6706 Princeton Park Trail:**

Princeton Park Trail is classified as a local roadway. Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5-foot landscape strip with a 5-foot sidewalk. It requires pedestrian scale streetlights. ([hefowler@dekalbcountyga.gov](mailto:hefowler@dekalbcountyga.gov)).

To: Mr. John Reid, Senior Planner  
From: Ryan Cira, Director, Division of Environmental Health  
Cc: Alan Gaines, Deputy Director, Division of Environmental Health  
Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

**Please provide additional information relating to the following statement.**

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7<sup>th</sup> Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the \_\_\_\_\_ square foot place of worship building would generate \_\_\_\_\_ vehicle trip ends, with approximately \_\_\_\_\_ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the \_\_\_\_\_ (Single Family Residential) District designation which allows a maximum of \_\_\_\_\_ units per acres, and the given fact that the project site is approximately \_\_\_\_\_ acres in land area, \_\_\_\_\_ daily vehicle trip end, and \_\_\_\_\_ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS: Did not see any traffic engineering concerns at this time.
