

Grant Drive Water Main Replacement Project Update: Aug. 17, 2026

Greetings,

On behalf of the Grant Drive Water Main Replacement Project, we would like to report that construction activities are progressing.

Construction crews will continue working to complete the final project activities, including cut and plug work, permanent paving and lawn restoration. Permanent paving is scheduled to begin the week of Aug. 24, 2026, barring any scheduling conflicts or unforeseen circumstances. Lawn restoration is expected to begin Aug. 28, 2026.

As the Grant Drive Water Main Replacement Project comes to an end, the Grant Drive Sewer Rehabilitation Project continues. Residents may continue to see construction crews and equipment in the area as sewer rehabilitation work progresses.

The DeKalb County Department of Watershed Management appreciates your patience and cooperation as these critical infrastructure improvements are completed.

For general inquiries about the Grant Drive Water Main Replacement Project, please contact the Department of Watershed Management Project Information Line at **1-800-986-1108** or email projectinfo@dekalbcountyga.gov. For 24-hour emergencies, please call **770-270-6243** or email dekalbwaterops@dekalbcountyga.gov.

Thank you for your continued support.
