

Testing Your Water

There are two ways that you can test your water for lead:

1. Send a water sample to a laboratory: [According to the Georgia EPD List](https://epd.georgia.gov/document/document/certified-chem-labs-812023pdf) (<https://epd.georgia.gov/document/document/certified-chem-labs-812023pdf>)

- [AMA Analytical Services \(GA Lab # C052\)](#)
<https://www.amalab.com/capabilities/overview/>
 - 4475 Forbes Boulevard Lanham, MD 20706
Contact: Dana Nicodemus Hudson 301-459-2640
- [Analytical Environmental Services, Inc. \(GA Lab # 800\)](#)
<https://mytapwater.org/testing/analytical-environmental-services-inc-30340-2/>
 - 3080 Presidential Pkwy Atlanta, GA 30340
Contact: Doug Mendrala 770-457-8177 ext. 215
- [Edge Analytical \(GA Lab # C037\)](#)
<https://www.edgeanalytical.com/>
 - 1620 S. Walnut Street Burlington, WA 98233
Contact: Melissa Swanson 360-757-1400 ext. 103
- [EMSL Analytical, Inc. \(GA Lab # 972\)](#)
<https://www.emsl.com/>
 - 200 Route 130 North Cinnaminson, NJ 08077
Contact: Anastasia Krakhaleva 856-303-2562
- [Environmental Hazards Services, LLC \(GA Lab #C038\)](#)
<https://leadlab.com/>
 - 7469 Whitepine Road Richmond, VA 23237
Contact: Howard Varner 800-347-4010
- [Environmental Resource Analysts \(GA Lab # 836\)](#)
<http://www.eralab.com/forms.html>
 - 2975 Brown Court Auburn, AL 36830
Contact: Erin Consuega 334-502-3444

2. Purchase at home lead test kits: You can purchase an at-home lead test kit online or at your local home improvement store to check for lead in your home.
