Subject: West College Water Main Replacement Project (RESTART)

Dear Resident/Homeowner,

As part of DeKalb County's \$4.27 billion capital improvement program, the Department of Watershed Management (DWM) will be improving the capacity and service of the watershed systems serving your community. The **West College Avenue Water Main Replacement Project** has been designed to improve the watershed system in your community.

This letter serves as formal notification that construction activities associated with this project continue **Tuesday, Sept. 8, 2026**. Prior to the World Cup Moratorium, crews replaced approximately 5,500 linear feet of ductile iron water pipe between South Candler Street and East College Avenue. Crews will replace approximately 1,240 linear feet of ductile iron water pipe between Lakeshore Drive and Emeril Drive. This project is expected to last approximately four months (September 2026 to December 2026), barring any weather delays.

Construction hours will be from 7 p.m. to 7 a.m., Monday through Friday, excluding major holidays. An increase in construction-related noise and traffic during work hours should be expected.

GS Construction, working on behalf of DeKalb County, is the authorized contractor for the **West College Water Main Replacement Project**. All workers will be wearing proper identification and driving marked vehicles.

Should you have any questions or concerns regarding **West College Water Main Replacement Project**, please do not hesitate to contact the DWM Project Information line at 1-800-986-1108 or email projectinfo@dekalbcountyga.gov.

We appreciate your patience as we work diligently to make improvements to DeKalb County's watershed system.
