Please review the following information

Approval of this Certificate of Appropriateness does not release the recipient from compliance with all other pertinent county, state, and federal regulations.

Before making any changes to your approved plans, contact the preservation planner via email. Some changes may fall within the scope of the existing approval, but others will require review by the preservation commission. **If work is performed that is not in accordance with the scope of work approved by the issued certificate, a Stop Work Order may be issued for the property and a new Certificate of Appropriateness will need to be obtained.**

If your project requires that the County issue a Certificate of Occupancy at the end of construction, an inspection may be made to verify that the work has been completed in accord with the Certificate of Appropriateness. If the work as completed is not the same as that approved in the Certificate of Appropriateness, a Certificate of Occupancy will not be issued. You may also be subject to other penalties including fines and/or required demolition of the non-conforming work.

If you do not commence construction within twelve months of the date of approval, your Certificate of Appropriateness will become void, and you will need to apply for a new certificate if you still intend to do the work.
