Sumac Drive Water Main Replacement Project Update: Oct. 27, 2026

Greetings,

DeKalb County Watershed Management continues to make steady progress on the Sumac Drive Water Main Replacement Project. We appreciate your patience and understanding as crews work to improve the county's water infrastructure and support reliable water service for the community.

Here is the latest update on construction activities:

Sumac Drive: Crews are flushing the newly installed water main along Sumac Drive between Ridgelock Court and Sanlee Way as part of the ongoing work to prepare the line for service.

Ridgelock Court: Pipe installation is continuing as crews work to advance construction in this area.

We understand that construction activities can be inconvenient, and we appreciate your continued cooperation as the project moves forward. Our goal is to complete this important infrastructure work while minimizing disruptions to residents as much as possible.

Thank you for your continued patience and support as we work to complete these important infrastructure improvements.

For general inquiries about the Sumac Drive Water Main Replacement Project, please contact the Department of Watershed Management Project Information Line at 1-800-986-1108 or email projectinfo@dekalbcountyga.gov.

For 24-hour emergencies, please call 770-270-6243 or email dekalbwaterops@dekalbcountyga.gov.
