

Woodacres Water Main Replacement Project Update: Sept. 4, 2024

Dear Resident:

A water line and a gas line have been hit in the Woodacres project area. The waterline will be back up in the next few minutes. AGL, the gas contractor, is on site to make the repairs to the gas line, so that should be fixed shortly as well. You will see police and fire personnel in the area, which is a safety protocol anytime a gas line is hit. We apologize for any inconvenience this may have caused.
