On June 25, 1995, the skeletal remains of an unidentified black male were found in a wooded area inside Stone Mountain Park. No clothing was found on the remains. A stainless steel wire was present in the lower left jaw indicating a previous repair of a fractured jaw. There was a pronounced gap between the upper front teeth, as well as a nonexistent socket for tooth #9. The individual is suspected to be between 30 and 50 years of age at the time of his passing.
