

PATHLINK

PathLink is an endeavor by DeKalb County to promote use of the Stone Mountain Trail by providing wayfinding signage and safety improvements in neighborhoods north of Memorial Drive. Increased trail usage can accomplish long-term goals such as reduced traffic, improved community health, and establishing a sense of place.

We will be holding a public meeting on June 13th at 6:00 PM at Georgia Piedmont Technical College. Please join us to hear more about the project, view project materials, and provide input to Planning staff!

Visit our Engage DeKalb website to learn more, sign up for project updates, and take our survey!
